CHURCH NOTICES AND ACTIVITIES

UNITED CHURCH NOTES
The services next Sunday will be at Albert, Alma Mater and Irma at 10 a.m. and 7 p.m. There are hearty welcome to worship with us.

A thought for the week: "A contented mind, springing from the faithful discharge of our duty, from satisfaction of conscience, from a good hope in regard to God and our future state, is much to be preferred to all the delights which any temporal possession or fruition can afford."

ANGLICAN CHURCH
The service will be held at the United Church, Sunday, November 1st at 3 p.m.

—Rev. A. M. Trendall, Vicar.
The next W. A. meeting will be held at the home of Mrs. Carter on Tuesday, November 10th at 2.30 p.m.

MEMORIAL SERVICE ON NOVEMBER 11TH

A Public Memorial Service will be held in Kiefer's Hall, Irma on November 11th at 10.45 A. M. All veterans are asked to attend this service and to "Fall In" at 10.30 a.m. sharp at Com. Yeend's, next to Fair Grounds, all Medals to be worn, when we will then parade to the Hall. The Public are specially invited to attend this service. A Pipe band will be on parade and play to the Hall. The Rev. Mr. Trendall of Wainwright will conduct the service, the "Last Post" being sounded by two of the comrades.

STANDING OF PARTIES

London, Oct. 29th.—Five returns are still to come in Britain's general election. The results in Inverness, Western Isles, London University, and combined English Universities, (2) will not be known for some days. The corrected standings show 610 members elected out of 615. It gives the National Government a total of 350; opposition 60, including five Independents and five Lloyd George Liberals—or an estimated government majority of at least 550. Party standings follow:
Conservative, 472; gains 207.
National Labor, 13; gains 13.
National Liberal, 65; gains 26; losses 2.
Labor Party, 50; losses 235.
Lloyd George Liberals, 5.
Independents, 5; gains 3; losses 3.

SOME PLAIN FACTS

For Alberta Grain Growers' Consideration

It is of vital importance to every grain grower that a strong grower-controlled co-operative elevator system should continue to function in this province and the Alberta Pool elevator organization represents the only facilities in the province that meet these requirements. This elevator system represents an investment of approximately eight million dollars, contributed by Alberta farmers, and the only method by which this substantial equity can be protected and continued operation assured under grower control, is through the producers of this province extending their patronage to the system. This applies to grain growers throughout the province, whether Pool members or not.

All country elevators of the Alberta Wheat Pool are operated under public license and as such are in a position to handle any grain of any farmer on any basis provided under the Canada Grain Act. The Alberta Wheat Pool further emphasizes the fact that its elevator system is on a sound financial basis, has ample working capital, is managed efficiently, and can give unequalled service to the grain growers of the entire province. The agents are carefully selected and strictly instructed to give fair and equitable treatment including proper weights and grades for their grain to all customers.

Alberta Pool members should not in all fairness, seek to place any blame on the Alberta Pool elevator system for the payment situation in connection with the 1929 and 1930 pools. The sales of grain and the issuing of payments therefore came under the jurisdiction of the Central Selling Agency. The Pool elevator system had nothing to do with that situation. Responsibility for the administration and operation of the Alberta Pool elevators has always rested with the provincial organization and on that record the system deserves consistent support.

The Alberta Pool elevator system has been in operation for four years. In that time the giving of good service and equitable treatment to patrons at the lowest possible cost has been the main purpose kept in mind by the elevator administration. At the same time, during those four years, the excess earnings of the Alberta Pool have been distributed to growers on a patronage basis and a portion retained by the organization to provide working capital.

It is desired to again emphasize the importance of growers delivering their grain through Pool elevators on the basis that the Pool is endeavoring to operate these facilities without discrimination between customers and with the definite policy of extending fair treatment to all persons using such facilities, and under this policy your patronage is essential to the continued operation of these co-operative elevator facilities under producer control.

ALBERTA WHEAT POOL

NEWS ITEMS FROM KINSELLA DISTRICT

Mr. and Mrs. J. Neale and family spent Sunday at Vermilion with the latter's parents.

Mr. and Mrs. J. Neale and family spent Sunday at Bashaw with the latter's husband, Mr. Neale.

Miss Dorothy Williams was taken to the Viking hospital on Thursday night suffering from appendicitis. She was operated on Friday morning and we are glad to report that she is getting along nicely and her many friends hope to see her home soon.

Threshing has been held up again on account of rain and snow on Monday. If the weather had remained fine threshing would have been completed in the district in the next two weeks.

The Jamieson Construction Co. have opened up their camp here again as they have received another contract for gravel.

Mr. William Andersog of Edmonton is spending some time here looking after the work in the gravel pit, also Mr. D. Richardson of Edmonton.

Mr. H. Cooper of Phillips shipped a car load of stock from here on Monday.

Mr. Ben Wachter, boss on one of the B & B gangs of the C. N. R. spent the week end at his home here.

WOMEN'S INSTITUTE

The next meeting will be held on November 5th at the residence of Mrs. Fischer.

This being the last meeting before the annual meeting, will all members who are in arrears, please see the treasurer before the audit of the books.

The sewing committee requests all the work to be in at this meeting so as to fix everything for the Bazaar which will be the first Saturday in December. Mrs. George Higginson will give a lecture on Maternity work. Will all try to be here. The roll call will be answered by "Useful suggestions for the 1932 programme."

CARD OF THANKS

We wish to thank all of our kind friends for their sympathy and kindness shown us in our recent bereavement and also for the many beautiful floral tributes.

—Mr. and Mrs. H. F. Austin, and Family.

Contributed Huge Sum To Assist Employment

C.P.R. Spent more than \$11,000,000 on new Branch Lines and station buildings and provided 351,000 days work for men otherwise unemployed. Co-operated by doing work years ahead.

Since the commencement of the existing economic situation the Canadian Pacific Railway has spent a matter of eleven or twelve million dollars in providing work for unemployed Canadians. When it was apparent in the late summer of 1930, that certain areas of southern Saskatchewan were to suffer from almost complete crop failure, the Company took upon itself to assist the people in that territory by beginning the construction of a branch line between Vanguard and Mayrhone. This line would be built for the purpose of providing employment to the farmers and their teams in the drought-stricken area. The total cost of the line is estimated to be approximately \$1,000,000, and this work is still proceeding.

The Dominion Government subsequently undertook considerable work for the unemployment relief and the Canadian Pacific has been called upon to cooperate. This the Company did to the limit of its ability by anticipating works which would, normally, not have been started for a number of years. These works included a number of new branch lines, the building of a new station at Regina, some grade

E. B. Ramsay, Chairman of Grain Board, Spoke on Board's Work

(From The Viking News)
E. B. Ramsay, chairman of the Board of Grain Commissioners, addressed a meeting of farmers and business men here Monday evening wherein he explained the workings of the Canada Grain Act in a practical way. Questioned as to the status of Garnet wheat, he stated that next year after July 1932, Garnet wheat will have a separate grade such as Garnet No. 1, Garnet No. 2, etc. Fifteen million bushels of Garnet wheat were grown and inspected last year at the terminals. He reviewed the work of the government standards department in the way of standards and grades and asserted that Canada is the only country in the world that can sell their wheat on a government certificate, and that a U. S. government certificate as to grade is not accepted in England at its face value. Canada is zealous of her high standard and means to maintain it.

Canadian wheat is now selling at Minneapolis in spite of a 45-cent premium. He contrasted the advantage of the bulk handling of grain as practiced in Canada with the bag system in vogue in the U. S., India, Australia and the Argentine. He urged the farmers to maintain a high standard of wheat which in turn determines the price paid at local elevators.

Questioned as to the recent resolution of the Dominion Board of Trade regarding the export of No. 1 grade wheat to Canada graded No. 1 when it reached England, he stated that the assertion was absurd, in the light of the intensive inspection and care taken in exporting wheat. Canada had a high standard for export and this was all right. The speaker also outlined the basis for moisture content in wheat and the reasons why the limit of 14.5 moisture content in wheat had been established which percentage had been arrived at after extensive research and experiments in storing and shipping grain. Country elevator grain testing apparatus was not recognized by the Board, and any farmer not satisfied with the grades given at local elevators should send a sample to the government grain inspection department at Edmonton.

Mr. Ramsay was accompanied by W. H. Blatchford, assistant grain commissioner for Alberta, who explained the basis of his department in handling and solving complaints. Many questions were asked and answered satisfactorily. As the chairman, Andrew Holmberg, stated, it was a worthwhile meeting and much useful information had been given for the benefit of the community.

NOTICE

The Council of the Municipal District of Battle River No. 423 have issued an order that all Farm Implements must be removed from all Road Allowances in this Municipality without delay.

SATURDAY IS HALLOWEEN

Saturday, October 31st, is Halloween. Usually this has been celebrated by acts of hoodlums and vandalism that cannot be condoned by right thinking citizens, and acts that are subject to arrest and fines, in an ordinary category of punishable offenses. Halloween parties and innocent pranks such as calling at residences in a friendly manner may be overlooked, but further than that it becomes offensive. It is to be hoped that the young men and boys will not overstep the line of decency in any celebration that they may indulge in, and remember that a property holder has rights that cannot be overridden even on Halloween.

HARVESTER HIT BY CAR WHEN HORSE BOLTS INTO ROAD

Dies From Injuries.

About 7.45 p.m. Wednesday while driving home from threshing, J. Peterson ran into a man on horse back, three miles south of Jarow. The horse apparently became confused and jumped in front of the car. The man, who was working on the threshing outfit owned by A. F. Canada, known as Bob. The injured man was rushed to Irma where Dr. Greenberg found he had died before reaching Irma. An inquest will be held at Irma on Thursday afternoon.

The verdict of the inquest arrived too late for publication in this week's issue.

Thos. G. Dark, Eyesight Specialist of the Edmonton Optical Co., will be at Irma Hotel Monday, November 9th after 5 P. M. Eyes tested. Glasses fitted and Guaranteed. Prices have been reduced.

BANK COMPLETES CROP REPORT

Surveying the crops of the Dominion, it can now be said that the wheat yield of the Prairie Provinces is approximately 157,000,000 bushels below a five year average, with corresponding reductions in the yields of coarse grains; that crops of the main staples in Ontario and Quebec generally have been heavier than average and of good quality; that in British Columbia crops generally have been fairly satisfactory, and that in the Maritime Provinces the yield of apples and hay have been above average, with oats a good average and potatoes below average. In respect to the Prairie Provinces, the Dominion Bureau of Statistics estimates the wheat yield at 246,400,000 bushels from 23,178,000 acres, which compares with their estimate of 374,500,000 bushels from 23,960,000 acres last year, and a five year average of 404,000,000 bushels. This year's oat crop is estimated at 177,700,000 bushels against 254,011,000 last year, whilst the barley crop at 52,800,000 bushels contrasts with 109,495,000 bushels last year. Land sown to coarse grains was approximately 13,262,000 acres, or 1,720,000 acres less than in 1930. The harvested acreage for all crops was much smaller than the seeded acreage due to abandonment, principally in central and southern Saskatchewan, on account of drought, high winds and other damage. Details follow:

Prairie Provinces

Grain production for 1931 will be the lowest since the dry years of 1913-1920. The seed bed was unusually dry and rainfall came not only late but in less than normal amounts in the growing season in all but the northern areas of the three provinces. High winds and soil drifting caused serious damage in the southern areas of each province, particularly in southern and central Saskatchewan and southern Manitoba. Damages from rain and pests have been limited, but hail losses were serious in parts of Alberta. Coarse grains show the smallest losses for many years, a large acreage furnishing feed only. Generally speaking, there are fair to good crops in the northern areas of each province. June rains in Alberta enabled crops to recover and poor areas are limited to southeastern and east central portions of the Province. Crops over large areas of south and central Saskatchewan and south western Manitoba have been practically a total failure, with shortage of seed and feed indicated. Central Manitoba harvested a crop 50 per cent of average. Average wheat yields by provinces are estimated as follows: Alberta 16 bushels, Saskatchewan 7.3 bushels, Manitoba 10.4 bushels. Harvesting commenced in good time except in central and northern Alberta where crops were backward due to cool weather. Threshing is completed in Manitoba, but 15 to 20 per cent remain to be threshed in Saskatchewan and 25 to 30 per cent in Alberta. Early deliveries of wheat graded high and although rain caused some deterioration in Alberta and northern Saskatchewan, recent dry weather is resulting in higher grades. Harvesting costs have been lower than for many years. Wheat deliveries by farmers in the Prairie Provinces to October 20th totalled 106,000,000 bushels, which compares with 166,000,000 at the same date last year. The yield of surplus grain in Alberta is estimated at 105,000 tons from 12,400 acres, against 127,000 tons from 14,400 acres last year.

BEEES, BEAVER AND BEARS

Bees, bears and beaver are the best barometers, and these animals predict an early winter and a cold one. In the opinion of a veteran railroader of the Canadian National Railways, who has made a close study of these weather prophets. Bees, this year, have built their nests high, wide and ample. This means that the bees are providing against deep snows and possible starvation through a long drawn-out winter. The bears are rolling in fat and, therefore, prepared to go into early winter quarters for a long rest. Beavers already have their supply of food cut and stored against an early freeze up and their houses are built extra strong.

WEEKLY REVIEW PROV. MARKETS

BEEF—On the Edmonton market there has been a good demand, while receipts have continued light. Choice heavy steers brought \$4@4.75; choice light \$4.25@4.50; good \$4@4.25; medium \$3.25@3.75 and common kinds \$2@3.

FEDERS, STOCKERS—There has been an active demand in this market during the past week, while receipts have shown little improvement. Feeder steers brought \$3@3.75; stock steers \$2.50@3.50; stock heifers \$2.50@3.50; stock cows \$1.75@2.50.

HOGS—On the Edmonton market hogs, fed and watered, brought \$4.50@4.55, with select offerings at \$5@5.15 and butchers \$4@4.15.

SHEEP—Yearlings made \$3@3.44 on the Edmonton market while ewes sold at \$1.50@3, and lambs easier at \$4@5.

POULTRY—Chicken prices steady, with No. 1, over 4 lbs., 10@12c; No. 1 under 4 lbs., 9@10c; No. 2, 7c. Fowl quotations unsteady, with some reports showing a decline while others are unchanged. Prices for this week show spread, and are as follows: No. 1, over 4 lbs., 9@10c; No. 1, under 4 lbs., 7@8c; No. 2, 5@6c; roosters 5c. Receipts expected to increase soon and undertone of market weak, as there is very little demand.

EGGS—Extras and firsts have advanced 4c, while seconds are up 2c. Extras, 26c; firsts, 24c; seconds, 12c. Receipts light, while demand is moderately active.

HAY—Offerings have been more liberal during past week, but movement from country very slow as buyers are inclined to hold off and run stock on stubble fields. Little demand expected before cold weather sets in. Prices steady, with timothy \$12@13 and upland \$9@9.50 per ton at country points.

FEED OATS—Little demand prevailing and offerings only arriving as required. Price steady at 23@25c per bushel, delivered, with most sales made at former figure.

GREENFEED—Quality of this feed very good, as it consists largely of oat timothy. Good demand and although offerings not large, they are increasing. Price steady at \$9@10 per ton, delivered.

HOW ADVERTISING HELPS

Advertising by the individual merchant makes a great difference in the prosperity of a whole town and community. The business which does not advertise is not only losing a great opportunity to increase the business of that particular business but is putting a brake on the progress of the rest of his town. Newspaper advertising brings people to a town. The more merchants of that town who use this means, the more people go to it to trade and do all their buying. One or two business concerns cannot shoulder all the burden. In towns where they do, the trade is going over the good highways to other towns where co-operation is better—Win-slow (Ind.) Dispatch.

Coal

See us for your Next Load of Coal. The kind which does not clinker; produces abundance of heat and burns a long time with the minimum of ash.

We used the Coal during the winter of 1930-31 both the Kitchen Stove and Furnace and found it most satisfactory thru our coal selling at \$2.00 more per Ton.

If you want a small quantity we have it already in sacks of 100 to 150 lbs.

Dysentery Is a Very Dangerous Bowel Complaint

Mrs. E. M. Ward, 627 Ave. H. South, Saskatoon, Sask., writes:—"When my husband was in France he took dysentery, and was in hospital over a year. Ever since he came back he has had the attacks three or four times a year. I cannot emphasize the good Dr. Fowler's Extract of Wild Strawberry has done for him. He generally takes a few doses and gets relief in a few hours."

"I cannot speak too highly of your excellent remedy, and you may be sure we are never without a bottle of it in the house."

The Western Spirit

Are the people of Western Canada losing, or in danger of losing, that fine pioneer spirit which enabled them in the past to tighten their belts and hang on through times of stress and hardship, and that optimism which, looking to the future, could distinguish the silver lining to the cloud which presently boomed above them? Are the people of this generation losing, or have they lost, this spirit and optimism which carried their forefathers into the forests of old Ontario and Quebec to hew out homes, and which inspired the men and women of a generation ago to trek to the vast prairies of the West, build little shacks and break the virgin soil with a crude plow drawn by oxen?

These questions suggest themselves when we hear of the way in which a considerable number of people are reacting to the existing difficulties confronting them during this period of world-wide emergency. Unquestionably many men and women are facing their problems just as courageously as ever, but there does appear to be an increasingly large number who are inclined to throw up their hands and rest content to become objects of charity and governmental assistance. There seems to be a tendency on the part of many to depend solely upon relief supplied by others rather than make a real struggle to provide their own relief from existing difficulties.

Government assistance in times of national emergency, as the Prime Minister of Canada has described the present situation—is necessary. So, too, is assistance that can be provided by churches, charitable organizations and individuals. Some families must have such assistance, and, because the need has been created through no fault of their own, they are fully deserving of it. But there are many who can get along without it, or at least with a very minimum of such assistance, but who, because of the organization of relief measures on a large scale, are adopting the attitude that they might just as well get a large share, a full share, of what is going on.

In cities and towns cases are constantly cropping up of people who could get along without help but who, lacking pride or even common honesty, have enrolled themselves on relief lists. The writer has even heard of farmers who, having a small crop, neglected to harvest it because, they argued, they could get more government relief if they had nothing than would be the case if they had even a little of their own.

After all, times like the present call for self-reliance, self-sacrifice, courageous effort to make the best of things and get along with as little as possible. Before the Great War people were asking questions somewhat similar to those appearing at the beginning of this article. Had the human race deteriorated? The stamina of the race was demonstrated in the fiery furnace of war, not only by men in the trenches, but by the munition worker, the producer of food, transportation workers, and the great mass of people everywhere and in all walks of life. Practically everybody was willing to assume their share of the burden and make their sacrifice, large or small.

A revival of the same spirit is necessary now. True, there were profiteers, and grafters, and slackers, during the war, but they were regarded with loathing and contempt then, and still are. We want none of them now. What Western Canada needs today in order to successfully tide over the existing depression, and to save the life of the individual, is the old spirit which was so long the pride and boast of this country—the courage, the endurance, the optimism of the early pioneers. It was that spirit which made the country what it came to be; it was the same spirit that won the war; it is the same spirit that will save the day now, both in the case of the individual who display such spirit, and in the country as a whole. Lying down, letting "George do it," trying to get something for nothing, grumbling and fault-finding will not better the situation one whit. It will only make matters worse.

Let us as a people, individually and collectively, stand upright on our own feet and fight our way through. Where there's a will, there's a way. It can be done. It must be done, or we are but creating greater problems and piling up still larger difficulties for the future.

Ten Years Of Seed Collecting

British Columbia Has Produced Over Twenty Tons Of Various Species

The establishment for the extraction of forest tree seed which has been maintained at New Westminster, British Columbia, by the Forest Service of the Department of the Interior, has now completed ten years of service, and in that time has produced 49,940 pounds (practically twenty and a half tons) of seeds of forest trees of various species. Virtually all of this has been sent to the Forestry Commission of Great Britain and the state forest services of New Zealand and Australia. The chief species whose seed has been secured are Sitka (or silver), spruce, western yellow (ponderosa) pine, and Douglas fir.

Alfalfa Good For Humans

Hey! Hey! It's good for you, Alfalfa, the cow's delight, is bully for humans, according to Dr. E. V. McCollum, of James Hopkins University. The cattle food, he told a health institute called by the Milk Council of Greater Chicago, is crammed full of vitamins and is palatable in salad form. As a substitute, however, for those who do not like hay, Dr. McCollum suggested that they drink milk only from cows fed on alfalfa.

Trade conditions in the Union of South Africa continue to improve.

TO GET RID OF CONSTIPATION

Use Dr. Carter's famous Little Liver Pills. Entirely Vegetable. Gentle but effective. No bad after-effects. For 60 years they have given quick relief from Biliousness, Sick Headaches, Indigestion, Acidity, Bad Complexion.

25c & 75c red packages. Ask your druggist for CARTER'S LITTLE LIVER PILLS

Gandhi May Visit America

Indian Leader Willing If He Would Not Be Made Ridiculous

Mahatma Gandhi is willing to go to the United States at the conclusion of the round table conference if his friends can convince John Haynes Holmes, New York pastor, that the Mahatma would not be made a laughing stock.

"Holmes tells me my visit would be misunderstood, that I would be exploited, ridiculed and misinterpreted," Gandhi said.

"If others who have invited me can convince Holmes I ought to go to America I shall be glad to reconsider my decision."

"Einstein said his visit was the greatest mistake of his life because most Americans regarded him only as a spectacle. I'm not as sensitive as Einstein but I ought not to go to America unless the American people are willing to listen to my message rather than regard me as a curiosity."

Coal Imports

Increase Shown In Importation Of Welsh and Scotch Hard Coal

Anthracite coal from the British Isles, imported to Canada through the port of Montreal this season, has reached a total of 659,668 tons to the end of September. The figure was 9,373 tons higher than in 1930 to the same date.

Overseas coal and coke receipts for this season are lower than last year by 105,020 tons, due to the embargo on the importation of Russian anthracite. The increase in Welsh and Scotch hard coal has not made up the difference. Last year 148,000 tons of Soviet anthracite was landed here.

MOURING WARDROBE

"A death occurred in our family and I had to go to mourning. I could hardly afford to buy all black clothes, so I decided to dye what I had. I consulted our druggist and he advised using Diamond Dyes. Everything came out beautifully: my curtains, dresses, stockings and all. I have since learned to appreciate the excellence of the black Diamond Dyes. I tried another black dye and the results were impossible. I had to get Diamond Dyes and do the work over. Recently I have tinted my curtains a beautiful raspberry shade and dyed a rug a lovely garnet with Diamond Dyes. They are real money savers—the money dyers mean by 'I truly believe'."

Mrs. G.K.L., Montreal.

New Advertising Idea

As Carried Out By Grocer In Denver, Colorado

The idea is not exactly new but its application is, as far as we know. A Denver, Colorado, grocer, cutting a baseball in two, pasted one half on the outside of his show window and the other half just opposite on the inside. That made the ball look as if it had been driven partly through the glass. A few streaks of black paint, artistically streaked like cracks. Nearby a placard labeled "Big Hit" carried a list of bargains the store was offering.

Persian Balm—the one toilet requisite for the dainty woman. Delightful to use. Leaves no sticky residue. Swiftly absorbed by the tissues. Delicately fragrant. Imparts a velvety softness to the complexion. Tones up the skin. Soothes and banishes all unpleasant roughness or chafing caused by wind and other weather conditions. Makes hands soft and white. Creates an elusive, essentially feminine charm. Persian Balm is indispensable to women of refinement.

Television and Radiovision Permits The Dominion Government has granted television and radiovision permits to the newspaper La Presse of Montreal. The paper's two stations will be used simultaneously, covering Greater Montreal with television. Engineers are now rushing installation of the first station of its kind in Canada, the paper announces.

And Money Is Scarce The battleship "Emperor of India," which was refloated after being stranded since her use as a target ship by the "Iron Duke" on June 11, was towed into Portsmouth recently, and docked. The salvage has cost about \$800 a day, or, roughly, \$52,800. We'd hate to agree to hold the baby for Mr. and Mrs. Lindbergh.

for COUGHS

Take half a teaspoonful of Minard's in molasses. Heat Minard's in milk. Also rub it well into your chest.

You'll get relief!

MINARD'S "KING OF PAIN" LINIMENT

HER FAT HAD TO GO

Activity Melted it

Exercise is the enemy of fat. If you are overburdened with superfluous flesh, call up reserves of energy to fight it. Do as this lady did:—

"During the past six months, I have made steady improvement whilst taking Kruschen Salts. I have reduced 28 lbs. in weight during that period, and have benefited greatly from greater agility and liveliness—all directly attributable to that famous preparation."—Mrs. W.P.

You can take off fat with Kruschen Salts if you will take one-half teaspoon in hot water every morning before breakfast, modify your diet and exercise regularly.

While you are losing fat you will be gaining energy—in endurance—in ambition. Your skin will grow clearer, and your eyes will sparkle with the good health that Kruschen brings. The old arm chair won't hold you any more—you'll want to be up and doing—you'll enjoy work and active recreation and you'll sleep to the top. You'll lose fat, and probably live years longer.

Commercial Canning

Fruits and Vegetables Are Canned Under Strict Government Supervision

Commercially canned products, either fruits or vegetables, have an advantage from the technical standpoint of being canned at perfect maturity and within a few hours of harvesting. At one time the canning of fruits and vegetables was almost entirely done in the home; today the modern housewife gets her winter supply of fruits from the products of the up-to-date canning factory.

The pure food laws of Canada provide that canned fruits and vegetables must be sound products made from sterilized, clean, sound, properly matured and prepared fresh fruits or vegetables by means of heat, and kept in suitable, clean containers closed automatically or otherwise, and marked as to conform in name to the particular fruits or vegetables used in their preparation. No adulterated preservative or artificial coloring may be used in commercially canned fruits or vegetables. They may contain only pure water, sugar and salt as preservatives.

All canned products manufactured in Canada are produced under the strict supervision of the commercial canning inspection service of the Dominion fruit branch. Under this service four grades for quality are provided:—first, second, standard and fancy. Fancy, choice, standard and second. The terms used to describe each grade indicate clearly and concisely the nature and character of the product which qualifies for the grade.

An Oil Of Merit—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it was kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

No One Escapes Tax

Germany Goes About Collection In Very Thorough Way

The thoroughness with which the German tax of 15 is collected is illustrated by the following incident that occurred at the Manned Aerodrome, says the Geneva correspondent of the Irish Independent, Dublin.

A German citizen—a woman—was a passenger by air from Holland direct to Switzerland. She had been staying at Amsterdam, and was proceeding right through to Basle. Unfortunately, however, she alighted for a few moments at Mannheim, in Germany, and because she had stepped on German soil she was relieved, despite her protests, of 100 marks for leaving Germany.

Douglas' Egyptian Liniment is without a rival. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning.

Trade Opportunities

Good Market In France For Canadian Horses and Cattle

With a little adjusting of conditions here and there, there is every reason why Canada might export between 10,000 and 15,000 horses annually to France, and should also secure a larger share in France's cattle imports, which run to \$200,000,000 annually, in the opinion of Michael Sauzet of Paris, who deals with livestock in a large way and who has been spending several weeks in Canada as a purchaser.

A Useful Device A new device in Europe, an "electric finger," instantly detects any variation in the thickness of paper, parchment or woven material, and is said to pick out weak spots in air-pouches or reveal forgeries of checks by comparing their thickness with that of the originals.

Natural Resources Will Help Develop Churchill

Needs More Than Wheat Assists Kenneth K. McArdie

Wheat shipments alone could not make Churchill a real port, in the opinion of Kenneth K. McArdie, managing editor of the Commerce of the Nation, organ of the Canadian Chamber of Commerce, which last month conducted a tour to the new Hudson's Bay ocean port.

"But on the other hand there are vast mineral resources north of The Pas to mile 250, including large metal deposits and limitless water power and I believe that Churchill will definitely come out through the development of the natural resources which lie to the south. Leaders in the western cities are not now so enthusiastic on the Churchill scheme as they once were, but they have interested others who are confidently on the defensive in the support of their undertaking and through their work are foresting the dream of the west may come true."

He was addressing the Advertising Club of Montreal.

Big Game Hunters

Secure Fine Trophies

Irish and Belgian Parties Get Splendid Specimens In B.C.

A number of hunting parties have returned to Telegraph Creek, B.C., bringing with them the greatest collection of big game trophies ever obtained in the district.

Major James Workman, of Belfast, Ireland, secured, in a newly-discovered range district, stone sheep with horns 45 inches long, believed to be the longest ever secured. Members of the Pierre Solvay party, of Brussels, Belgium, secured several splendid specimens of rams, some of record size.

The Swedish film industry, of Stockholm, had an expedition in the district all summer filming big game, and returned with 16,000 feet of film depicting all species of northern British Columbia big game in their natural habitat.

Favours Peace Movement

Declares Italy Will Consider Any Peace Proposal

Dino Grandi, Foreign Minister, speaking at a meeting of the Rome Rotary Club where Viscount Cecil of Chelwood also spoke, reiterated what he described as Italy's willingness to consider any proposal, method or system likely to lead to reduction of armaments.

He agreed with Viscount Cecil that "fear and unrest" are the cause of the world's present trouble and that the real remedy is disarmament.

Grandi said the proposal for an armaments treaty which he made at Geneva, was only the first step, but he expressed confidence that its "moral significance" would contribute toward a revival of international confidence.

Airways Pilot Almost

Equals Hawk's Record

Flies From Edmonton To Calgary In Forty-Four Minutes

Clipping off just over four and a half miles a minute, Pilot Paul Calder, of Canadian Airways, came within an ace of equaling the record set by Captain Frank Hawks, for flying time from Edmonton to Calgary.

Piloting a Fleetster mail plane, Calder travelled the 196 miles from Edmonton to the southern city in 44 minutes. Hawks, the famous American speed pilot, made the distance in 43 minutes, with an international air tour flight in September last year. He was flying his famous super-speed monoplane.

Would Trade Coal For Wheat

The newspaper Tageblatt said negotiations were underway for the barter of half a million tons of Ruhr coal for a quantity of Brazilian coffee in a manner similar to that in which Brazil recently traded coffee for wheat from the United States. The Tageblatt suggests that negotiations might be extended to include a trade of coal for Canadian wheat.

Buried Gold

The United States, it appears has \$5,000,000,000 in gold, almost half the world's entire supply locked up in its vaults where much of it is doing just about as much good as the untold wealth in gold that still lies deep in the earth—Christian Science Monitor.

When you smile or laugh, your brain for a moment is freed from the load that it ordinarily carries.

Larkies: "I'm the boss in my house." Sparkies: "How long has your wife been away?"

Almost one-third of the wells that are drilled for oil and gas produce nothing.

26c OVER 12 MILLION JARS USED YEARLY

Future For Gold Mining

Says Gold Will Be In Demand As Long As Time Lasts

While other metals may be subject to price variations, gold will be in demand "as long as time lasts," said Hon. Charles McCrea, Ontario Minister of Mines, in addressing the Thunder Bay Chamber of Mines and the City Chamber of Commerce at Port William recently. He said he expected Ontario's gold production this year to value \$12,000,000.

Speaking of the northwestern portion of the province, the Minister said that there could be no mineral industry without mines, and he was glad to note that this section was getting mines, such as the Moss, the Howey and the properties now under development by the Conigas and the Homestead. With these as a foundation and the co-operation of the government, he believed that this section would recover the reputation it gained in the '80s and '90s.

Making the Front Page

Many Unnecessary Risks Taken In Order To Gain Publicity

Now the Wilkins' submarine has got all the newspaper publicity possible by diving under the Arctic ice and is recommended for the junk heap by one of its Norwegian passengers, we dare to entertain the hope that death of newspaper publicity will presently curtail the antics of trans-oceanic and 'round-the-world' fliers. "Get a good publicity man" was the first message to his Canadian wife from a stranded aviator on a Pacific island. Keep 'em off the front page and they'll stay at home.—Detroit Saturday Night.

Many mothers can testify to the virtue of Mother Gray's Worm Exterminator, because they know from experience how useful it is.

Still Partly Legible

Menu cards still partly legible after sixteen years, were washed ashore at Campbelltown, Ayrshire, with part of the wreckage of the "Lusitania," the great Cunard liner which was torpedoed and sunk by a German submarine off the coast of Ireland in May, 1915.

Keep on your Feet 4 MORE ACTIVE DAYS

She Dances on "Bad Days" too

SHE never watches the calendar... never has to "break a date. She dances... and enjoys it. The modern girl has learned how to ease those "trying times". A few days before... you'll find her taking Lydia E. Pinkham's Vegetable Compound.

Gone are those headaches... those backaches... those morbid, stay-at-home blues.

Won't you buy a box of the new tablets? They're so easy to take... and you'll feel so much better.

Lydia E. Pinkham's VEGETABLE COMPOUND

Fundamental Facts In Reference To The Gold Standard And Its Effect On International Trade

(By H. G. L. Strange, Director, Research Department, Searle Grain Company, Limited, Winnipeg)

The expressions "Inflation," "Deflation," "Rates of Exchange," "On the Gold Standard," "Off the Gold Standard," have been much written and talked about during the past few weeks, and inasmuch as expert economists and financiers do not all agree as to the respective benefits or defects of these economic policies, the plain person may be pardoned for being somewhat bewildered by it all.

Perhaps, however, a simple review of some of the fundamental facts upon which the majority of experts seem to agree may be of help at this time.

Countries officially on the gold standard are prepared to pay their debts when due and demanded and to redeem their bonds, notes and bills in actual gold, if required. Countries not officially on the gold standard, usually in order to preserve, behind their bonds, notes and bills, a certain minimum amount of tangible gold security, do not guarantee always to pay their debts at once in tangible gold, although in practice actually they may always do so. (This, without doubt, is exactly the position in which Great Britain finds herself at this moment.)

The quoted exchange value of a country's currency, i.e. the pound, the dollar, the franc, the mark, etc., whether that country is on or off the gold standard, simply expresses the opinion of the world at large as to the value of that country's currency or credit, in terms of gold.

The real value of any country's exchange does not always depend as to whether that country is officially on or off the gold standard, but certainly does depend in the main upon the credit of that country or in the faith that the world at large has in the financial country which always pays its debts, in full, exactly when due, and in some medium of exchange that is acceptable to both parties, or as a last resort in gold.

Naturally the knowledge that a certain country has a large amount of gold in reserve is good tangible evidence of ability to pay, hence of good credit.

That a country balances its budget each year is also evidence that warrants faith. That a country is trading at a profit and so has surplus funds to invest, and that a country is year by year not spending more than it can afford, or that country has valuable potential resources that can be developed to bring in wealth, are all reasons for faith in that country and are reasons that will inevitably result in a high exchange value of that country's currency, whether it is on or off the gold standard.

In the long run the real price of wheat or any other commodity, that is its purchasing value in relation to all other commodities, will depend but very little upon the rates of exchange, or upon whether countries are on or off the gold standard, but will in the main depend upon the relationship of the supply and the demand of wheat or any other commodity, and will further depend also in no small measure upon the purchasing power of those persons who need the commodity wherever they may reside, and the purchasing power of these persons must depend in the long run upon whether somewhere in this world, they can sell the products of their own hands or brains at a profit. If they can do this they are eager buyers of wheat and all commodities, and are willing to pay a fair price because they can afford it. If, however, they are unable to sell the products of their own hands or brains, then naturally they will have but little with which to purchase any commodities, and will only be able to afford those that are offered at a cheap price.

The prodigal son went wrong, but he came back all right.

"I find it exciting."
"I don't see it."
"I haven't a permit."—Der Gemuthe Sachse, Leipzig.

Bakers' Pastry

Association Discusses Criticism That Cakes All Taste Alike

The criticism that all bakers' cakes taste alike was discussed by several delegates at the convention of the Bread and Cake Bakers' Association at Montreal.

One baker attributed the monotony of flavour to the fact that the trade used too much vanilla essence, killing the taste of the eggs and butter. Another felt that the fault lay in the practice of tasting the cake before it was iced and then tasting the icing before it was put on the cake. Cake and icing should be tasted together in the bakery to get the combined effect.

Yet another put forward the explanation that flavouring were often poured in carelessly without accurate measurements.

Bakers only supplied eight to 10 per cent of the cake consumed by the community, declared a delegate.

Canadian Fish For New York

Fish Freezing By New "Quick Freezing" Process Going Forward From Prince Rupert

Commercial shipments of fresh Alaskan salmon and halibut, treated under the new "quick freezing" process of refrigeration, have now begun to move regularly between Prince Rupert and New York, according to the traffic officials of the Canadian National Railways, and at least 20 carloads, each containing some 30,000 pounds of "quick frozen" fish will be moved over Canadian National Railway lines between November 1 and the end of February. It was only last month that the first "quick frozen" fish ever handled between Alaska and the east were delivered in Groun Conn.

WHAT NEW YORK IS WEARING

Illustrated Dressmaking Lesson Furnished With Every Pattern Here's one of those darling little French frocks with quaint charm and simplicity.

It's so cunning to wear, and easy to slip into, and as easy as A, B, C to make it.

It's fashioned of French blue dimity, with white pin dots. The pleated collar is white organdie. It may be bought already sewn to the neckline. However, the pattern provides for pleated collar, if you wish to make it of self-fabric. Adorable schemes suggest themselves for this cute model as sprigged dimity, orchid and white tissue checked gingham, pale blue linen and pink dotted Swiss.

Style No. 3254 is designed for girls of 2, 4, 6 and 8 years. Size 4 requires 1 1/2 yards of 35-inch material with 3/4 yard of 30-inch contrasting.

All patterns 25 cents in stamps or coin (coin preferred). Wrap can carefully.

Eskimo Needs Wife With Good Teeth

Chief Occupation Seems To Be Chewing Husband's Wardrobe

Eskimo wives are not selected so much for beauty of face, or form, or the charm of mentality, but rather with special reference to the quality of their teeth and their skill as tailors, says H. W. Porter, on his return to Nova Scotia from the Arctic. Clothes are practically as important as food, and good teeth are the first requisite of good tailoring. The skins are first scraped, stretched out on the snow to dry, and then—and this is where the teeth come in—they are chewed and worked up until they are soft. This must be done before they are fashioned into trousers or boots so that the needle, with its thread of caribou tendon can pass through. Needles made of bone were at one time used, but of late these have given way to the regular steel needles which are now procured at the trading posts.

The need of good teeth is still necessary after the clothes are made, for the first act of the man returning to his family igloo is to remove his wet skin clothing. This is promptly hung up by his wife. In the process of drying it becomes almost as stiff as hard wood, so before her husband arises, the wife chews his moccasins into such a condition of pliability as will permit of further use. In fact the Eskimo woman appears to spend the greater part of her time chewing her husband's wardrobe, and it is not unusual for the woman to gather together and chew the skin almost the same as women in this country used to crochet.

It is obvious that the bachelor labours under a great handicap, and as males are considerably in excess there is a heavy demand for wives.

Credit For Drought Areas

Must Establish Credit Through Application To Relief Officer

Farmers in the drought areas of Saskatchewan needing fodder must establish their credit through application to the relief officer, according to instructions recently issued by the Saskatchewan Department of Agriculture to municipal officials.

The application will then be submitted to the relief commission. Distribution of the feed by the rural municipal authorities will then be made in amounts not to exceed three tons of hay or other fodder per head of horses or cattle, less his supply on hand.

Orders will not be received direct by the Department of Agriculture.

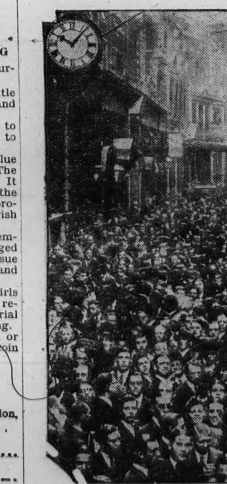

Under the new regulations, the department will continue to purchase fodder for rural municipalities, but the latter must no longer contract for fodder or feed grain or pay for same except as they may have contracts completed. In such cases they may arrange for funds for the purpose through the Department of Municipal Affairs.

Could Not Be Shelved

After receiving a petition "11 miles long" against the proposed bill granting Sunday movies, the English Government has decided not to push the measure in Parliament.

A total of 47,779 tons of German anthracite has been imported this season. British bituminous imports have reached 19,883, a reduction from last year of 13,662 tons.

AS OLD KING GOLD FELL

Announcement that the British National Cabinet had decided to ask Parliament to pass a bill temporarily suspending the gold standard, brought this huge, millisea of humanity to Throckmorton Street, London, England, where the Stock Exchange is located. Here's the Wall Street of London, England, as it was filled to overflowing by vitally interested Britons.

Settlers For North

See Visions Of Great Farming Community North Of 53rd Parallel

Visions of a great farming community north of the 53rd parallel, are seen in the north as dozens of applications to take up agricultural land in various parts of the north have been made this summer to the lands branch in Winnipeg.

With many settlers already established in four or five separate sections of northern Manitoba, there is a growing trend among citizens of northern towns to go on the land, and many from points in Saskatchewan and central Manitoba are turning their eyes northward.

Men acquainted with the situation state that many settlers as well as new applicants are handicapped on account of lack of capital. Those already settled on farms in The Pas area and along the Hudson Bay Railway have engaged to a great extent in truck farming, while a number are turning to dairying and poultry raising, the trend is towards mixed farming.

Abundant Crops For Next Year Predicted

Precipitation Figures Show Guarantee Of Sufficient Moisture For 1932

Prediction that there would be abundant crops throughout western Canada next year, was made by Robert Henderson, mortgage corporation inspector, on his return to Toronto from a two months' tour of the west.

Conditions both on the farms and in the cities were not as black as they had been painted, he said. Certain definite areas in southern Saskatchewan and Alberta were experiencing difficulties, but he cited tax collections, butter production figures and bumper crops in the northern parts of the prairies as indications that things were not as bad as they appeared.

He based his prediction of the crop next year on rainfall statistics for the past few months. Precipitation figures for the past three months, he declared, provided a guarantee of sufficient moisture for 1932.

Trade Through Churchill

Bright Future Is Predicted For Western Canada's Seaport

That eventual flow of the main current of trade from central Canada to the east, will probably go over the Hudson Bay route through Churchill in future years, is the opinion of Lloyd Roberts, of Ottawa, son of Dr. Charles G. D. Roberts, eminent Canadian author and poet, who, with his father, was a recent visitor to northern Manitoba.

Mr. Roberts stated that while on his visit to the new port he had been informed on good authority that \$3,000 was saved in sending the recent test shipment of grain to Churchill from the west, as compared with transporting to Port William.

Mr. Roberts, a well-known Canadian journalist and, like his father, a writer of prose and poetry, has for six years, been a member of the press gallery at Ottawa.

Suitable Reading

"What became of that clerk you had here?"
"I had to fire him. A man came with his bride to buy a book for reading on his honeymoon and the stupid assistant offered her 'Travel With a Donkey.'"

Canada Has An Immense And An Unconquerable Belief In Herself, Declares Premier Bennett

Has Success With Peanuts

Ukrainian Farmer In Ontario Planting

The Simcoe, Ontario, Reformer, says: Norfolk grows cotton and tobacco!

Also peanuts! Not just a small garden patch of peanuts, but a whole field of them.

On the outskirts of the village of Waterford lives one, Sammy Zerilik, Ukrainian by birth, who has successfully raised and harvested an acre or more of peanuts.

Sammy owns ten acres of land and grows a variety of fine crops, but these peanuts are his especial pride and care.

It was rather a strange thing how he got the idea about growing peanuts. One day he was in the city of Hamilton and from a street corner vendor bought a five-cent bag of peanuts. He opened one or two of them and found the nuts in their natural and unseasoned condition. Not caring for peanuts of this kind, he took them along home. Next day he thought of planting the peanuts in a flower pot which he did.

The peanuts grew up, produced flourishing plants and multiplied.

That was four years ago. The next year Sammy put a few out in the garden where they seemed to grow equally well. Another year passed and he had quite a patch. There were not such a great quantity of peanuts but sufficient to appease the appetite of his young boys.

Without the slightest knowledge of the science of growing peanuts or of soil and climatic requirements he planted over an acre to peanuts last spring. The soil is a fairly light sandy loam, and the land has a gradual slope. The plants did well from the outset and were as husky looking as a field of potatoes. The plant is just as tall as a potato plant, however, and more resembles the vines of a bean plant. The peanuts cluster thickly about the roots of the plant.

Pea For Jobless Women

Have Same Right To Be Looked After As Men

As the governments of British Columbia or of Canada do anything constructive to provide for unemployed women? What have they done?

Must women marry to get employment? Whom will they marry—unemployed men? Supposing for example a girl or woman is alone in Vancouver, with no relatives and no work—what can she do about it? Can she go to the Government, as men do, and get a job? Why can't she? Is there a "double standard" in unemployment relief?

Have women any voice in these unemployment programmes? Why haven't they? If women had a share in it, would they have dickered and negotiated and stalled for months and done nothing?

Every day girls and women, with throbbing pulses and moist eyes, are besieging offices and stores and factories; they cannot get a job; they have no money. Vancouver has nearly 700 women on the lists for unemployment relief, and other cities have similar figures. Must they remain idle because their country, one of the world's greatest, has not the ingenuity or the initiative to plan work for them?

The Favourite Apple

Survey Shows "McIntosh" Leads With "Spy" Second Choice

"Apples are apples," but not when you know them. In a recent survey the Fruit Branch of the Dominion Department of Agriculture secured some interesting information on this subject. The Dominion favourite is McIntosh, the survey shows. Then in order come the Spy, Gravenstein, the Delicious and the Baldwin. By provinces Ontario prefers its "Spy"; Nova Scotia and New Brunswick their "Gravenstein"; while Quebec, Manitoba, Saskatchewan, Alberta and British Columbia all vote "McIntosh" first. Other popular varieties are Greening, Snow, Fameuse, Duchess, Winesap, Bow Sweet, Wagener, Jonathan, and Wealthy.

Many Janitors Employed

It takes 480 janitors to keep the Empire State Building in New York City in order, and there isn't a hand mop or broom used. All cleaning is done by machines. Although 50,000 people trudge in and out of the building daily, they track in only one barrel of dirt.

Science still does not know what sort of language the ancient Etruscans of Italy spoke.

In highly optimistic and ringing terms, Premier R. B. Bennett emphasized Canada's unconquerable belief in herself. The Canadian Prime Minister spoke at the opening of the new home of the Canadian Club of New York, recently.

"Canada has an immense, an unconquerable belief in herself," Mr. Bennett declared, and with his remarks wholehearted applause broke forth from his audience. "We have the faith that accepts good times as our natural due and bad times as only an interlude between past prosperity and the greater prosperity that is to come. I suppose we were born that way, and all the forces of world distress are powerless to change us. That does not mean that Canadians are vainglorious, reckless or prodigal, for they are not."

"In any kind of life thrift and economies are virtues, in our pioneering lives, they are even more essential. Nor does it mean that Canadians are confused between the facts as they are and as they would have them. We face whatever situation may arise with the knowledge that however bad it may be, hard work by all our people, courage in every walk of life, real and intelligent co-operation among the elements which compose the nation, cannot fail to better our position."

The Prime Minister faced distinguished fellow-Canadians prominent in the professional and business life of the United States.

"I am not here to discuss the state of affairs in Canada," Premier Bennett stated. "But for the purpose, the very happy purpose of meeting old friends whom the turn of events which carry us hither and thither, has too long separated from me."

"Our trade reports, bank statements, our revenues, our expenditures, are published and made available to all. They tell the story of our progress in these troubled times; that, and the fact that our great institutions built upon the foundations we long ago determined to be sound, and unshaken in this economic convulsion which has rocked the world."

"You all know that and the reason, as well why, though we have problems, though we have unemployment, though nature this year has been unkind to our western wheat areas, our problems are less acute than those of other countries; our unemployment situation while serious is controllable, and the major calamity in our west is one from which we can forecast an early recovery."

Not a Good Risk

Insurance Companies In U.S. Bar Prohibition Agents

Maybe you didn't know it, but being a prohibition agent is just as dangerous as being an acrobat or a stunt man.

The American Life Convention, holding its 26th annual session at Pittsburgh, received the occupational manual from its committee on "average lives" and right there under the heading "R.N.A." up beside folks who risk their necks in other ways, the committee has listed prohibition agents.

"R.N.A." it is explained, means "risk not accepted."

Runs Into Million

A contemporary points out that while home-grown tomatoes are to be seen everywhere at present, "a few months from now we shall be importing them as usual from Bermuda." It is interesting to find that Canada imports fresh tomatoes to the extent of about \$1,900,000 per year, but in the past these have come chiefly from the United States (more than two-thirds of the total) with Mexico second and Bermuda a poor third.

A pessimist is one who makes difficulties of his opportunities, and an optimist is one who makes opportunities of his difficulties.

"You rascal, if you fell and killed yourself, what would you say then?"
Le Moustique, Charleroi.

Farmers Mutual Lumber Co. Ltd.**Lumber and Building Material****Coal: Drumheller and Pembina****We Serve Ourselves Better by Serving Others Best****P. J. HARDY, Manager - - - Irma, Alta.****NOTICE****TO THE RATEPAYERS OF THE MUNICIPAL DISTRICT OF KINSELLA, No. 424**

I have been instructed by the Council to have inserted in this newspaper a short explanation of the Tax Consolidation Act.

The owner of any farm land who had arrears of taxes on January 1st, 1931, and which arrears are still in arrears, may make application to the Secretary of District to have these taxes consolidated, which means that the whole amount of the arrears together with 7 per cent. interest will be divided into five equal payments, the first payment, together with the current years taxes to be paid to the Secretary on or before 15th of December, 1931, the second payment December 1932 and so on.

If any farm land owner enters into this agreement with the Council, then any proceedings which may have been started under the Tax Recovery Act will be stopped.

But if the land owner after having entered into this agreement fails to keep his part of the contract, then the proceedings which had been started will be in force again.

If there is anything in this that you do not understand see your Councillor or come and see me and I will be glad to explain everything to you. All applications to enter into this agreement must be made before December 16th, 1931.

BLAKE H. GREEN, Sec.-Treas.
Municipal District of Kinsella, No. 424.

Your Needs In Printing**WHEN BUSINESS IS QUIET**

When there is a quiet time as at present in usual business, a good chance is afforded merchants and others to check up their requirements for the year, place orders and have them completed in readiness for the hurry up periods. This is especially true of your printing and we venture to draw your attention to our well equipped plant.

Our stock of Paper, Envelopes, Cards, Cardboards, and all other items required in this business is complete.

An Ad Is an Invitation**The Wastebasket**

A little boy who appeared at a neighboring school when it opened the other day had a bad cold and kept sniffing almost continuously. Finally the school ma'am asked: "Little boy, haven't you got a handkerchief?" "Yes, but I don't lend it to strangers," the boy replied.

"You must remember we are daughters of Eve," remarked a lady who headed a delegation of ladies that went to make a request of the village council in a neighboring town. "Well, honestly, you ladies don't appear to be half that old," replied the mayor in an effort to compliment them.

How true to life is the modern movie actress, says a careful observer, when she plays a simple village maid with plucked eyebrows, beaded eyelashes, painted lips and wearing the latest creations of the dressmakers in Paris.

An old proverb says that the three things most difficult are—To keep a secret, to forget an injury, and to make good use of leisure.

Heard at the men's social: "Ever hold a perfect hand?" "At bridge, or in the moonlight?"

Heard among the fellows at the Kinsella dance: "That Foley girl of mine knows her onions." "Yes, I've noticed that her eyes watered when she looked at you."

Rags make paper. Paper makes money. Money makes banks. Banks make loans. Loans make poverty. Poverty makes rags.

It is said that Santa Claus is having some difficulty to find something as beautiful to put in stockings this year as has been seen traveling around in them on the streets.

A young man calling on his best girl at Lavoie the other evening said he was afire with his love for her. But papa came and put him out.

A scandal! A hunter was seen hugging the shore in a boat last week while hunting ducks.

An agreeable person is one who talks to you about yourself.

The chief cause of divorce has been discovered. It is marriage.

Money makes the mare go, but you don't have to do anything to make the money go.

Answer to "anxious farmer": "What is the matter with my hens? Nearly every morning I find two or three lying with spread out wings and no signs of life."

Answer:—"If you will make careful investigation you will find that these hens are dead."

It begins to look as if there might be something to the theory of evolution, especially in names, from the following sentence:

At birth she was named Mary. At 16 she changed it to Marie. Her husband shortened it to May. Now it's simply Ma.

A Bruce girl announces that she is ready to get married, having two on the waiting list—herself and the minister.

A woman is always sure that her shoes look larger than they are if they are comfortable.

The three necessities of human existence are said to be coin, cash and money.

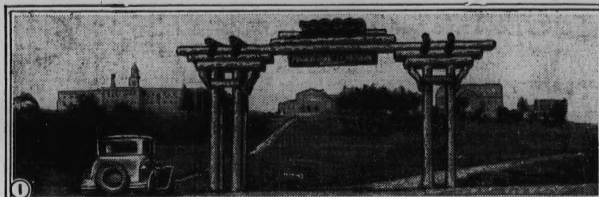

"You can't keep money, it seems to burn your pocket," declared a local citizen to his son. "Yes, dad," the boy replied, "that's why I blow it."

"How have you the nerve to look me in the face?" demanded a Bruce lady of her husband as he arrived home from the poker party. "Well, it is said that one can get used to anything," he replied.

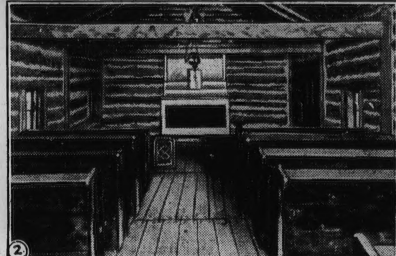

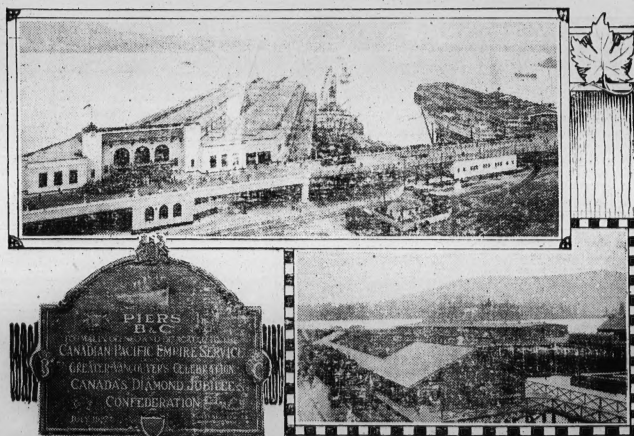

"And don't you help your mama with the dishes when she has company," asked a lady guest of a little boy at a home here last week. "I don't help her wash 'em," he replied, "but I help her count the spoons after the company's gone."

"What sort of work are you aiming at?" asked an employer here of a girl applicant. "Well, I was sort of aiming at matrimony," she replied.

If you have something valuable that you don't want and somebody else can use it, an ad. in this paper will sell it for you. Try it.

Immortalizing Pioneer Priest

One of the most colorful figures of the development of the Canadian West is immortalized today, at the scene of his labors, St. Albert, on the Sturgeon River, just outside Edmonton, by the preservation in the Mission Park of the Oblate Fathers of the original "cathedral" and mission which he founded in 1860, under orders from His Lordship Bishop Tache, of St. Boniface, and in which he carried on his work until his death in 1916. This celebrity is no less renowned a personage than Rev. Father Albert Lacombe, after whom Lacombe, Alta. is named, and who played such an important part in the pacifying of the warring Indian Tribes of the West and the building of the Canadian Pacific Railway. His untiring efforts in the latter connection won him special recognition from Sir William Van Horne, its president, who not only gave him a permanent pass on the line, but made him its head for one day. From the day of his arrival in the West in 1849, from Quebec, where he was born in 1827, this brave and energetic Oblate had staunch friends among the Indians and continued to establish himself, both among them and the white population, as one of the best-known and most-loved characters of the most stirring days of the Prairies. Apart from his religious activities, Father Lacombe is known as one of the real Westerners of Canada. The country was in a very undeveloped state when he first established himself in it and Mission Park, today, stands for a great deal more than just a mission station, or the scene of a devoted missionary's labours. It is a milestone in the progress of the Canadian West and, hence, in the progress of the Dominion. The pictures show: (1) the approach to Mission Park; (2) the interior of the old "cathedral"; (3) the exterior, with the brick building which now encases the old log church, and (inset) the statue of Rev. Father Lacombe.

**Great Pier Dedicated to Empire Service**

1. New C.P.R. Pier at Vancouver. 2. Bronze plaque unveiled by Mayor Taylor of Vancouver. 3. The C.P.R. Docks as they appeared in the early days of this port.

One notable feature of Greater Vancouver's celebration of the Diamond Jubilee of Confederation—and one that no other city in the Dominion can boast of duplicating—was the dedication and official opening of the new \$6,000,000 Canadian Pacific Pier B-C.

The new mammoth pier is the second longest in the world, and was planned with an eye to a prosperous future when Vancouver will be one of, if not the biggest, port on the Pacific coast, and designed to accommodate at least two of the greatest liners built.

It is a far cry from the first wooden pile ocean docks built by the Canadian Pacific in the early spring of 1887 when Vancouver was a city of stumps and possibilities to the present pier with nearly 3,000 feet of berthing space available and accommodation for the cargoes of a dozen of even the most modern ocean cargo

hounds. Representing the last word in modern machine construction, the new pier is also notable for the pleasing manner in which the practical has been combined with the artistic.

The Canadian Pacific is interested chiefly in the trade with the Orient, Australia and New Zealand. Although imports and exports are of a mixed character, the most valuable single article is silk. Silk shipments must be transferred from boat to rail with the least possible delay. Facilities embodied in the construction of this pier ensure the rapid and careful handling of all cargoes.

While designed primarily for the use of its own ships, the C.P.R. will allow pier B-C to be used by the ships of other lines. Its length of 1,140 feet permits the docking on either side, of the largest of the present day trans-Pacific boats—the Empress of Canada, 640 feet in length—with a

smaller vessel. Its width of 331 feet permits a moderate sized boat to be docked at the off-shore end at the same time that either or both sides of the pier are in use.

A special feature of the construction of the pier is that a promenade is constructed down each side of the pier leading from the head-house over the roofs of the freight sheds. Connections are made from this promenade to the ships by a long gangway so that passengers may embark or disembark without hindering the freight handling on the lower deck.

In officially opening the pier Mayor Taylor unveiled a magnificent bronze plaque, a gift of private citizens of Vancouver, which bears the following inscription: "Piers B and C. Formally Opened and Dedicated to the Canadian Pacific Empire Service during Greater Vancouver's Celebration of Canada's Diamond Jubilee of Confederation by Louis D. Taylor, Mayor of Vancouver."

(From The Viking News)

DENOUNCE THE GOSSIPS

The short but very true and appropriate article on the evils and vice of gossip, as published in your valuable paper "The Viking News" a few weeks ago has given me the courage to write the following, voicing the opinion of some of the victims of false gossip.

As of old busy-bodies are having a good time indulging in gossip at other people's expense, and as one who has suffered a deal of pain, inconvenience and annoyance as a result of this abominable vice. I think I may write "with authority" on the subject. We have none of us any authority to be amusing or interesting, at other people's expense, it is an impertinence, but more so it is an offence against ordinary common decency — which like common sense, isn't common at all.

The absolute wrong of this modern scandal-mongering is that it is indulged in by some of the most deliberate maliciousness, a great deal of it is pure thoughtlessness, but a careless gossip is just as dangerous as a malicious one. One hears people say the most disgraceful things about other people, things said with a smile, and regarded by the people who say them as nothing more than "amusing", yet which are terribly damaging to the reputations of the people concerned.

Some gossip-mongers themselves would be horrified if they realized what harm their careless tongues are doing.

Some people talk very freely about themselves, but that does not give others the license to murder their reputation, they are their own worst enemies.

A good reputation is still of value even in these days of reckless candour. The pity of it is that until one has let one's reputation become tarnished does one realize how valuable it is.

Gossip spreads wildly as a prairie fire and loses nothing, but gains out of all recognition in the spreading. Two people cannot be seen together on more than one or two occasions without some ulterior motive concerning either morals or business being attributed to them, and more often it is one's morals that are dragged in the mire.

Some people will even stoop as low as to spy on others, in order to feed their inherent greed for gossip.

The gossiper, per se, when remonstrated with, after repeating some startling and scandalous thing about another person, is an airy "Everyone knows", but who is "Everyone"? Everyone, when you start to investigate is merely a handful of people with careless tongues, and a dreadful lack of realization of the harm they do by their thoughtlessness.

Women have the reputation of being inveterate gossips, unable to resist scandal-mongering, but in these days at least we find the men are equally as great offenders.

Professions in which men and women are trusted with the private affairs and confidences of the public, how often we find these confidences betrayed by those to whom we have placed implicit trust, and used to further their own malicious ends, to appear well-informed, to bring them before the foot-lights of notoriety, in other words to gratify their inherent conceit.

Gossip is like a malignant disease; something perpetually eating into the system of its victims, it's venom is so poisonous that of the serpent, of which there is no cure. There is no scientist clever enough to produce an antivenom which would neutralize the slightest effect on the microbe of gossip.

We have also the imaginative person, whose imagination runs riot, and they weave the most realistic story from the merest thread, that when it is difficult to believe it is not founded on facts. These are most dangerous people, and it is not safe to tell them anything or to repeat anything they may have said. Shut them as you would the plague.

Often things said about myself get repeated to me, and always I am astounded by their complete lack of truth to anything I have ever said or done.

Quite recently I was told that I had been seen doing a certain thing at a certain time and date, when in actual fact I was many miles away at the time.

I could mention many similar instances of false gossip, but quote this to show the irritating length to which gossip can go. Not all gossip is merely irritating and inconvenient, all too often it is the malice of jealousy, disapproval, dislike, it is then it causes such pain, distress and serious trouble.

I find the malicious slandering, wounding things are usually said by people who find themselves in violent disagreement with the ideals and moral standards of life to which I adhere. Not understanding they jump to conclusions, and two and two are always five in the reckoning of the malicious.

A woman whom I met for the first time a little while ago said, "I'm so glad to have met you and find you entirely different to what I expected; I was rather dreading you and the awful things we heard about you."

It is a sorrowful state of affairs when one is to be met in person by one's fellow creatures can believe that one is not more vicious than other people, and indeed rather less vicious than some.

The readiness with which the majority of people believe the worst of everyone else is a fact which is a very real danger to the peace of the world. They never stop to question or hear both sides of the story, but believe the one which suits them, even when they often know this to be wrong. This is most cruel and unkind to the person concerned. There is a very old and true maxim which tells us that one of a story holds good, till the other side is told, and how often this other side alters the whole colour of the first.

The excuse of gossip is humanity's inherent interest in the affairs of

VIKING

The Chamber of Commerce at their meeting on Monday evening appointed a committee to work with the local skating rink committee to find ways and means to improve and enlarge the skating rink and assist in promoting hockey. Considerable correspondence was read and ordered placed on file. The next meeting will be in the form of a banquet at the King Edward hotel on Monday, November 16th, when Dr. Wallace, president of the University, will be the guest speaker. Arrangements are also being made by the secretary for an afternoon meeting in the hall when citizens will have an opportunity of hearing the university head.

A miscellaneous shower for Miss Nelson, nurse at the local hospital, was held at the home of Mrs. Dodds last Thursday evening. Miss Nelson is a bride-to-be, and she was the recipient of many useful gifts at the function which was given in her honor by Mrs. Dodds, Mrs. Haworth, Mrs. Stock and Mrs. McAthey. There were four tables at bridge as part of the evening's entertainment.

November 11th has been declared a national holiday. It is optional whether the stores and business places are closed on that day. It is probable that some sort of ceremony commemorating the day will be observed, but questionably whether the stores will close during this busy season.

Those in attendance at the C. W. L. convention at Wainwright last week were Fr. O'Neill, Mrs. J. L. Savik, Miss Mary Slavik, Mrs. J. Golka, Mrs. Street.

Ducks have been so plentiful in some parts of this district this fall that farmers report that in some cases the crop has been damaged to the extent of at least ten bushels per acre. Hunting parties from all over the province have not been slow to find this out, and as a consequence a great many of these ducks are now in cold storage awaiting the pleasure of the happy hunters.

S. S. Chiswell and family motored to the Bullock district about twenty-five miles south of Sedgewick last week where they spent a few days. Mr. Chiswell has a farm in that district and states that the average yield will be about twenty bushels per acre. Rev. T. T. Boe is holding an auction sale of household goods and effects at his residence on Saturday, November 14th. See list in this paper.

"Charming Simmer" is the attraction at the local movie theatre on Friday evening of this week. It is said to be a captivating picture.

Mr. and Mrs. Joe Short and son were over from Castor on Sunday. While here they motored to the Buffalo Park at Wainwright together with Mr. and Mrs. Harland Hilliker.

Remember the big dance in the Viking Community Hall on Monday, November 9th. The Viking orchestra will furnish music. Dancing from 9:30 to 1 o'clock. Lunch served in restaurants after the dance.

Sherriff Ray was in town on Friday looking up a prospective list of juries.

Dr. Storey, of Edmonton, formerly located here, was a visitor in town on Friday.

Mr. and Mrs. C. A. Dupre visited with friends and relatives at St. Paul on Sunday.

Don't forget the auction sale at the F. C. Cleverdon farm on Monday, November 2nd.

Joe Phillips is away for a few days to the Toftfield district where he is attending to some threshing on his farm.

Dr. W. H. Scott and Dr. Washburn, superintendent of the University hospital, Edmonton, were callers in town last Friday.

Dr. Little of Red Deer, and Dr. Saunders of High River, accompanied by Dr. McGugan of Edmonton, comprised a duck hunting party here on Friday and Saturday.

Members of Connaught Lodge A.F. & A.M. and wives held an "At Home" and farewell for Rev. A. L. Bee in the Masonic Hall last Friday evening. At the banquet Rev. Bee was presented with a token in remembrance of the occasion and the esteem in which he is held by the lodge and community in general.

A benefit dance will be held in the Elks hall on November 18th. Watch for further particulars.

A. Adell took in the sights in the Wainwright buffalo park on Sunday.

fellow creatures, but that interest surely does not give it the right to make deliberately untrue or irresponsible statements for the sake of being amusing or of appearing "well informed", or, as too often happens, merely for the sake of something to say.

The opinion of many is, that a law ought to be passed making gossip as serious an offence as blackmail; it does equally as much mischief.

We hear a great deal about "Peace and goodwill towards men", but how few of us carry this out in practice. If only we would do unto others, as we would have others do unto us, what a much happier world this would be.

—A Victim of much false gossip.

NEWS FROM BRUCE AND DISTRICT

The Bruce Women's Institute meets on Thursday afternoon, November 5. All ladies interested are cordially invited.

The Bruce Community Club is holding a Halloween party on the evening of October 30th. The Club now boasts of a membership of forty. Miss Helen Driscoll is secretary of the club and is ready to enroll new members.

Mrs. Chas. Stewart and Miss Annie Stewart were visitors in Edmonton over the weekend.

Mr. and Mrs. Herman Frederick were visitors in Edmonton last Thursday and Friday, travelling by road.

A week of good weather and the fields of stocks are replaced by straw stacks. Wheat yields are generally between 20 and 30 bushels per acre with some breaking a summer-fallow running to 35 and 40 bushels. Oats is not showing high yields, although a small acreage going 80 bushels to the acre is reported. Very little of the oats will grade 2 CW, the bulk of the crop being feed.

The funeral of Mrs. John Rabby, south of Bruce was held last Friday. The deceased at the age of 52 years departed this life on Tuesday, October 20th after several months of suffering. The husband and twelve children are left to mourn the loss of a devoted wife and fond mother. Mrs. John Kozak of Torlea is a daughter and Mr. John J. Rabby of Fabyan is a son. Interment was made at Kopernick cemetery; the Rev. Father Bordeaux officiating.

REV. A. L. BEE BIDS FAREWELL TO CONGREGATION SUNDAY
(From The Viking News)

On Sunday, October 25th, at the Anglican Church, the Rector preached his farewell sermon. All the services were largely attended by parishioners and in the evening the church was filled. In taking his farewell the Rector spoke of the many bonds of friendship which had existed between himself and all the people of Viking and district and mentioned how he had ever tried to be with his people to share with them in their joys and sorrows. He mentioned that no one was more sure than himself of many failures and in praying for his people he wanted them also to pray for him that he and themselves might daily grow in Grace until we all might become more perfect even as our Lord and Master was perfect. The Rector thanked his people in Viking and district for their wonderful tokens of love and their beautiful gifts, though he said he needed no gifts to remind him of his people, their love lay deeper than that; the memory of them all would constantly be a reminder of the loving hearts he would carry away with him into the Motherland. The Rector needed their constant prayers so that if it is God's will that he may be restored again to health he may be enabled to carry on his work for the Master in His vineyard. The Rector came into Canada an entire stranger not knowing a soul but he would be going back home leaving behind him a countless number of very dear friends. In the motherland there are very many dear friends awaiting his return amongst them in the parishes in which he used to work and he hopes that when he comes to the end of his life's journey the following lines may be true of himself:

"When the Great Eternal Auditor My book of life receives,
And He checks the daily entries That are written on its leaves;
May He find accounts in order,
And no need for fear or shame,
But a credit carried forward To the glory of His Name."
"May the Peace of God the Father, Son and Holy Ghost be with you all, now and for evermore."
—Rev. A. Loydall-Bee, Rector.

WORLD HAPPENINGS BRIEFLY TOLD

The 1931 Nobel prize for literature was awarded to Dr. Eric Axel Karfeldt, the Swedish lyric poet.

First shipment over the new extension of the Temiskaming & Northern Ontario Railway from Moose Factory consisted of 8,000 pounds of furs, valued at \$160,000.

H. R. Pousette, until recently Canadian Government Trade Commissioner on the United States Pacific Coast, has been appointed trade commissioner at Liverpool, England.

Of the 105 aviation records recognized as official by the International Aeronautical Federation, 38 are held by France, 30 by Germany and only 19 by the United States.

A petition from 100,000 emigrants in Australia asking that they be brought back to Great Britain because of their sufferings is under advisement by the government.

Pioneer lumberman and former member of the Royal North West Mounted Police, as well as a pioneer of western Canada, Joshua Wallace Collins, 80, died recently in Toronto.

Lord Hugh Montague Trenchard, marshal of the Royal Air Force since 1927 and a veteran of the world war, has been appointed commissioner of the metropolitan police succeeding Lord Byng of Vimy.

A decision to cease dispatching ships to Russia was adopted by German ship owners on the grounds that recent strikes aboard German vessels in Soviet ports had been abetted by Russian authorities.

Senator Charles P. Beaubien, Montreal, represented Canada at the opening of the Pan-American Postal Congress at Madrid. The Dominion's application for membership was ratified and Senator Beaubien took his seat as an official delegate.

Protest From Apple Growers In France

Ask Government Protection Against Canadian and U.S. Imports

An apple tariff, aimed at Canadian and United States products, will come before Parliament when it reconvenes in November. The North American products have flooded the French market, creeping even into Rouen, the heart of the Normandy apple region. Growers have asked Parliament to protect them. French state railway engineers have been at work teaching peasants how to grow better apples and how to pack them.

More than 12,000,000 tons of coal are awaiting shipment from mine pits of the Ruhr.

An old man is able to hold a place in industry if he owns the industry.

"Must we go to this party in very smart clothes?"
"No, in any old things, just as you are now."—Buen Humor, Madrid.

W. N. U. 1912

Canada Is Entertaining Distinguished Visitors

Several Outstanding Men To Spend Some Time Here

Men and women who have achieved distinction in widely different walks of life were greeted at Quebec when they disembarked from the Canadian Pacific liner "Empress of Britain."

Heading the passenger list were Lord Trenchard, newly appointed to head the Metropolitan Police of London, England; Rafael Sabatini, author; Lord Rothermere, publisher; Hon. E. B. Ryckman, Canadian Minister of National Revenue; Hon. Raoul Dandurand, former president of the council of the League of Nations; Hon. Rodolphe Lemieux, former speaker of the Canadian House of Commons, and Viscount and Lady Ebrington.

Lord Ebrington is to judge at the horse show held in connection with the Royal Winter Fair at Toronto. Prior to the fair he and Lady Ebrington will cross Canada to Victoria, B.C.

Lord Trenchard is to visit Kitchener, Ont., to extend to the Canadian Scouts Fusiliers the greetings of the Scouts Fusiliers, of which regiment he is Colonel.

Senator Dandurand is returning from a meeting of the League of Nations. Lord Rothermere told ship's reporters he was back in Canada to see pulp and paper manufacturers.

Recipes For This Week

(By Betty Barclay)

PUMPKIN PRESERVES

Remove the rind and seeds from a small pumpkin and cut the flesh in inch cubes. Cook in a small amount of water until tender. Drain and weigh. For each pound of pumpkin allow 1 pound of sugar, 2 lemons and 2 ounces of ginger root. Slice the lemons and soak with the ginger overnight in cold water. Next morning cook in same water until the lemon rind is tender. Add the sugar and the pumpkin, and simmer until the pumpkin is transparent. Drain and pack in jars. Cook syrup. It is thick and pour over the fruit in the jars. Seal tightly.

BEET RELISH

1 quart beets, diced.
1 medium-sized white onion.
2 red peppers.
2 teaspoons salt.
1½ cup grated horseradish.
1 pint vinegar.
¾ cup sugar.
Cook the beets until they are tender and the skins slip off easily. Cut or chop the beets, onion, and peppers. Combine the ingredients. Cook the mixture until it is clear. Seal it in clean, hot jars.

Cattle Reach Paris

Is First Consignment Canada Has Shipped To France

There recently arrived in Paris the first consignment of Canadian cattle ever shipped to France. The shipment consists of 172 head worth 500,000 francs. All were in excellent health and there was not a single casualty in the crossing.

This will be followed by a second consignment shortly. Moreover, French agents will shortly proceed to Canada to purchase lean heifers and steers to replace France's greatly depleted herds. France can assimilate regular weekly shipments of Canadian cattle for fattening.

Owing to veterinary regulations, Canada and Switzerland are the only two countries allowed to export cattle to France, and Switzerland has no exportable surplus.

Jurisdiction Extended

High Commissioner For Canada Now Controls All Departments

Jurisdiction over all departments of the Dominion Government in the United Kingdom will be exercised by Hon. G. Howard Ferguson, High Commissioner for Canada in Great Britain. An order-in-council passed when Hon. P. C. Larkin was High Commissioner, and which gave to Mr. Larkin additional jurisdiction, has been extended so as to apply to Mr. Ferguson. As things now stand the Canadian High Commissioner in London, England, will have supervision and control over officials of the Immigration, Trade and Commerce, Agriculture, and any other Government departments in the United Kingdom.

Windbreak Necessary

Plums, cherries, and the harder varieties of apples have been successfully grown on the Canadian prairies, but the orchards in all cases were protected by a suitable windbreak.

An historic entry among the steamship arrivals reads: "At Liverpool Farnworth from Churchill Manitoba."

Winnipeg Newspaper Union

(By Anabelle Worthington)

WHAT NEW YORK IS WEARING

Illustrated Dressmaking Lesson Furnished With Every Pattern

Here's a lovely model in printed flat crepe, so smart and easy to wear. It's charmingly slender too. The bodice cuts all in one until it joins the skirt flounce, which makes it especially simple for home seamstress.

Another idea for this easily made model, that will make it appear entirely different, is to make it sleeveless with the cape collar as shown in miniature view.

Dainty chiffon print, eyelet batiste and pastel tulle make up most attractively with the capelet collar. Then again for active sports, you can make it with the short sleeves without the capelet. Choose cotton mesh, pique or linen.

Style No. 222 may be had in sizes 14, 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Size 36 requires 3½ yards of 32-inch material with ¾ yard of 32-inch contrasting.

Wool crepe, tweed mixtures and canton crepe also appropriate. All patterns 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

Tried To Help

"Two cows in the field," said a teacher to a class of small boys, indicating the writing on the blackboard.

"Now, that sentence is wrong. Can anyone tell me why?"

Wearily she looked over the pathetic class.

"Come, come," she said encouragingly.

One youngster, with a latent spark of chivalry, sought to help her out of the difficulty.

"Perhaps one of them are a calf, miss," he suggested.

Birds mate for life, it is true, but they never make the mistake of getting the wrong kind of bird.

Doctor: "Uffers I hurry, I shall be too late."

She: "Is the poor man so ill?"

Doctor: "No, but in a very little while he could get well without my help."—Buen Humor, Madrid.

Hunt For Mysterious Gold

Indians Have Filed Claims At Government Office In Calgary

Gold discoveries northwest of the Morley Indian Reserve have shed some light on the mysterious trips of an aged prospector of Calgary who died without revealing the source of his wealth. Twenty-five Indians from the reserve sped into Calgary in automobiles to file gold claims at the Government office. They said they would begin working claims 50 miles northwest of Morley which is 50 miles west of Calgary.

The Indian invasion recalled Calgary's mysterious prospector. Each spring the veteran would journey to Cochrane or Morley, hire a pack horse and head northwards. A few months later he would return. Little sacks of gold burdened his pack horse. It was said the average return for the prospector's few months' work each year was \$2,000.

The silent gold hunter decided to reveal his find to a soldier who had been wounded in the war. The prospector informed the war veteran that he would take him to his secret find where "you will make enough to keep you the rest of your life." Death claimed the prospector before the treasure-seeking hunt could start.

Now Indians have discovered gold in the same area. The new strike is around Fallen Timber Creek.

Pessimistic prospectors who hesitated to race in the trail of Indians to Alberta's latest gold strike have switched to optimism, and an exodus from Calgary to the Big Timber Creek area is expected. Analysts said gold was evident in some of the ore.

The discovery of an abandoned cabin, a rusty gold pan and a miner's pick lent legend to the discovery, similar to the rush of prospectors into the Livingstone Range, southwest of Calgary, in the spring of this year. Hope again rose that the lost Lemon mine had been located. But wary prospectors said the same illusion lured them to the Livingstone area. Unlike the spring rush, gold actually has been found.

Existence Is Justified

Farm Schools Have Their Place In Educational System

The registration at colleges this fall is larger than ever, despite the depression in business. This increase in numbers of young men seeking an education is seen at the Ontario Agricultural College, and will doubtless be evident at the schools of agriculture as they open. With hard times experienced by almost everybody, the expenditure for college training is apparently regarded not as a luxury but as an investment that will bring full returns in later years.

When the Alberta Government decided that the interests of economy, one of the agricultural schools should be closed this year, a storm of protest was heard. These schools have justified their existence and have had a wide influence as rallying centers for young men and women from the farms. Recently when Hon. Robert Weir visited Alberta, to confer with the Provincial Minister and other officials, he took occasion to state that it was part of his policy to establish schools in connection with a number of the experimental farms, and that one of these would be located at Leithbridge. Each school will accommodate not more than fifty students, which will ensure that individual attention be given and that practical experience be obtained in the fields. Observation of the work done by the schools of this type that are already operating confirms the impression that they are best suited to the needs of young people who are to return to the farm. They have even a wider field of influence than the larger colleges which provide courses equivalent to university standards. There need be no rivalry between the academic and the practical institutions for each supplements the other.

New Better

"So you're a salesman now, eh, Sambo? Do you stand behind the products you sell?"

"No, sah, I sho don't."

"Why, Sam, I'm surprised at you. You should always stand behind your product. What are you selling?"

"Mules."

World's Grain Show

The World's Grain Conference and Exhibition, which it was originally planned to hold in Regina, Saskatchewan, from July 25th to August 6th, 1932, has been postponed until corresponding dates in 1933.

Statistical studies in Illinois indicate that women live, on the average, two years longer than men, yet women have more physical defects and get sick oftener.

But just think how long Methusalem might have lived if he had had his tonsils out and had used the right toothpaste.

Royal Winter Fair

Note Of Confidence In Canadian Agriculture Is Sounded

A welcome and refreshing tone of confidence in Canadian agricultural conditions is sounded in the announcement by the management of the Royal Winter Fair that "prospects for entries at the Royal in all departments were never better than at the present moment."

"Exhibitors in the western Provinces are most anxious to continue to display their live stock and other agricultural products," the Royal's statement goes on, "and the Dominion Government and the Provincial Governments, recognizing the advantages of the Provinces continuing to occupy a prominent position at the Royal are contributing their usual financial assistance in transportation and in the selection of the live stock and agricultural products."

"There has been more than the usual number of inquiries from United States points this year and the Royal's survey of Ontario and Quebec indicates that there is considerably more live stock than usual ready for exhibition, so that we are very satisfied that the Winter Fair will open with the best and most representative live stock displays which we have ever had."

"Although general conditions last November were anything but favourable, 1930 was the Royal's record year, not only in exhibits and attendance, but the spirit of the people at the show was happier than at any previous event. We feel sure that the spirit of optimism at that time has served a very useful purpose in that it has enabled Canadians better to view recent economic adjustments with equanimity. We believe that a similar result will be secured at the forthcoming Royal Winter Fair, and be more noticeable perhaps on account of the greater contrast in conditions."

"The Royal this year is designed to commemorate its founding and inauguration ten years ago, when in the depression that followed the war it helped so signally to restore confidence to Dominion agriculture generally. Since its 'birthday' at that time it has established itself as an institution to which Canadians all over Canada have pointed with a very considerable pride."

"The Royal is entering upon its new cycle under conditions which permit it to perform a service to Canada in influencing the general outlook and state of mind of the Canadian people, apart altogether from its influence upon agriculture. The aim of the management is that everyone who visits the Royal and everyone who exhibits there shall be better equipped to meet whatever problems may cross their path in the immediate future."

Air May Replace Gasoline

Car Without Usual Engine Equipment Demonstrated By Inventor

Roy J. Meyers, inventor, predicts motorists soon may refill their tanks with air instead of gasoline.

Meyers demonstrated an automobile with a six-cylinder radial type engine, minus the usual carburetor and ignition and cooling systems, but equipped with a compressed air tank filled to 500 pounds pressure.

He pulled a lever and the car picked up speed quickly and smoothly, with a slight hiss of air from the exhaust valves. The motor was geared so the maximum speed reached was 35 miles per hour, but Meyers said that, with a gear shift and a higher powered engine, speeds equal to or higher than those of gasoline driven cars may be attained.

As the air goes through the engine, forcing pistons up and down, much of it is recaptured and recompressed, Meyers said. The cooled air returns to the pressure tank, which is heated by electricity from batteries and a generator.

This heating, he explained, expands the air in the tank, increasing the pressure. He did not make clear how many pounds of air would be required per mile.

"No, sah, I sho don't."

"Why, Sam, I'm surprised at you. You should always stand behind your product. What are you selling?"

"Mules."

"No, sah, I sho don't."

"The Splendid Folly," "The Hermit of Far End,"
Hodder & Stoughton, Ltd., London.

CHAPTER III.—Continued.

He made no answer, but released her instantly, and in her anxiety to show him how well she could manage she hurried on, struck the tip of the skate she was still wearing against a little hummock of frozen snow, and all but fell. He caught her as she stumbled.

"I think," he remarked drily, "you would do well to sacrifice your independence till your feet are on more equal terms with any another."

Jean laughed ruefully.

"I think I should," she agreed meekly.

He led her to where the prone trunk of a tree offered a seat of sorts, then went in search of the missing skate. Returning in a few moments, he knelt beside her and fastened it on—securely this time—to the slender foot she extended towards him.

"You're much too incompetent to be out on the ice alone," he remarked as he buckled the last strap.

A faint flush of annoyance rose in Jean's cheeks at the uncompromising frankness of the observation.

"What are your friends thinking of to let you do such a thing?" he pursued, blandly ignoring her mute indignation.

"I have no friends here. I am—my own mistress," she replied tartly.

He was still kneeling in the snow in front of her. Now he sat back on his heels and subjected her face to a sharp, swift scrutiny. Almost, she thought, she detected a sudden veiled suspicion in the keen glance.

"You're not the sort of girl to be knocking about—alone—at a hotel," he said at last, as though satisfied.

"How do you know what I'm like?" she retorted quickly. "You are hardly qualified to judge."

"Pardon, mademoiselle, I do not know what you are—but I do know very certainly what you are not. And—smiling a little—"I think we have just had ocular demonstration of the fact that you're not accustomed to tending for yourself."

There was something singularly attractive about his smile. It lightened his whole face, contradicting the settled gravity that seemed habitual to it, and Jean found herself smiling back in response.

"Well, as a matter of fact, I'm not," she admitted. "I came here with my father, and he was—suddenly

BABY FRETFUL, RESTLESS?

Look to this cause

When your baby fusses, tosses and seems unable to sleep restfully, look for one common cause, doctors say. Constipation. To get rid quickly of the accumulated wastes which cause restlessness and discomfort, give a cleansing dose of Castoria. Castoria, you know, is made specially for children's delicate needs. It is a pure vegetable preparation; contains no harsh drugs, no narcotics. It is so mild and gentle you can give it to a young infant to relieve colic. Yet it is as effective for older children. Castoria's comfortable and restful sleep to your baby. Keep a bottle on hand. Genuine Castoria always has the name:

Dr. J. C. Fitch
CASTORIA
CHILDREN CAN FOR IT

W. N. U. 1912

called away. I am going on to stay with friends."

"This is my last day here," he remarked with sudden irrelevance. "I am off first thing tomorrow morning."

"You're not stopping at the hotel, are you?"

He shook his head.

"No. I'm staying at a friend's chalet a little way beyond it. 'Mais, voyons, mademoiselle,' you will catch cold sitting there. Are you too frightened to try the ice again?"

He seemed to assume that her next essay would be made in his company. Jean spoke a little hurriedly.

"Oh, no, I was supposed to have a lesson with Monsieur Griolet this morning. He is an instructor," she explained. "But he was engaged coaching someone else when I came out."

"And which is this Monsieur Griolet? Can you see him?"

Jean's glance ranged over the scattered figures on the rink.

"Yes. There he is."

His eyes followed the direction indicated.

"He seems to be well occupied at the moment," he commented. "Suppose you allow me to act as coach instead."

She hesitated. This stranger appeared to be uncompromisingly progressive in his tendencies.

"I'm perfectly capable," he added curtly.

"I'm sure of that. But—"

His eyes twinkled.

"But it would not be quite 'comme il faut'?"

"Well, it wouldn't, would it?" she retorted.

His face grew suddenly grave, and he noticed that when in repose there were deep, straight lines on either side of his mouth—lines that are usually only furrowed by severe suffering, either mental or physical.

"Mademoiselle," he said quickly.

"To-day, it seems, we are two very lonely people. Couldn't we forget

it is 'comme il faut' for once? We shall probably never meet again. We know nothing of each other—just ships that pass in the night. Let us keep one another company—take this one day together."

He drew a step nearer to her.

"Will you?" he said. "Will you?"

He was looking down at her with eyes that were curiously bright and compelling. There was a tense note in his voice which once again sent that disconcerting tremor of consciousness tingling through her blood.

She knew that his proposal was unexpected, unexpected, even regarded from the standpoint of the modern broad interpretation of the word convention, and that by every law of Mrs. Grundy she ought to snub him soundly for his presumption and retrace her steps to the hotel with all the dignity of a command.

But she did none of these things. Instead, she stood hesitating, alternately flushing and paling beneath the oddly concentrated gaze he bent on her.

"I swear it shall bind you to nothing," he pursued urgently. "Not even to recognizing me in the street should our ways ever chance to cross again. Though that is hardly likely to occur—"

—with a shrug—"seeing that mademoiselle is French and that I am really out of England. It will be just one day that we shall have shared together out of the whole of life, and after that the darkness again and a silence."

"I can promise you the 'silence,'" he added with a sudden harsh infection.

It was that bitter note which won the day. In some subtle, subconscious way Jean sensed the pain which lay at the back of it. She answered impulsively.

"Very well. It shall be as you wish."

A rarely sweet smile curved the man's grave lips.

"Thank you," he said simply.

CHAPTER IV.

The Stolen Day

"Encore une fois! Bravo! That went better!"

Monsieur Griolet's understudy had amply justified his claim to capability.

After a morning's tuition at his hands, Jean found her prowess in the art of skating considerably enhanced.

She was even beginning to master the mysteries of "cross-cuts" and "rocking turns," and a somewhat attenuated figure eight lay freshly scored on the ice to her credit.

"You are really a wonderful instructor," she acknowledged, surveying the graven witness to her progress with considerable satisfaction.

Her self-appointed teacher smiled.

"There is something to be said for the pupil, also," he replied. "But now—glancing at his watch—"I vote we call a halt for lunch."

"Lunch!" Jean's glance measured the distance to the hotel with some dismay.

"But not lunch at the hotel," interposed her companion quickly.

Jean regarded him with curiosity.

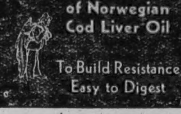

"Where then can we get our lunch?"

"Up there!" he pointed towards the pine-woods. "Above the woods there

is a hut of sorts—erected as a shelter in case of sudden storms for people coming up from the lower valley to Montana and beyond. It's a rough little shanty, but it would serve very well as a temporary salle a manger. It isn't a long clumb," he added persuasively. "Are you too tired to take it on after your recent exertion?"

"Not in the least. But are you expecting a wayside refuge of that description to be miraculously endowed with a well-furnished larder?"

"No. But I think my knapsack can make good the deficiency," he replied composedly.

Jean looked at him with dancing eyes. Having once yielded to the day's unconventional adventure, she had surrendered herself wholeheartedly to the enjoyment of it.

She made one reservation, however. Some instinct of self-protection prevented her from enlightening her companion as to her partly English nationality. There was no real necessity for it, seeing that she spoke French with the utmost fluency, and his assumption that she was a French woman seemed in some way to limit the feeling of intimacy, conferring on her, as it were, a little of the freedom of an anglophone.

"A la bonne heure!" she exclaimed gaily. "So you invite me to share your lunch, monsieur le professeur?"

"I've invited you to share my day, haven't I?" he replied, smiling.

They steered for the bank, and when he had halcyon air her skates and removed his own, slinging them over his arm, they started off along the steep white track which wound its way upwards through the pine-woods.

As they left the bright sunlight that still lit the snow-covered slopes behind them, it seemed as though they plunged suddenly into another world—a still, mysterious, twilight place, where the snow underfoot muffled the sound of their steps and the long shadows of the pines barred their path with sinister, distorted shapes.

(To Be Continued.)

Making More Butter

A statement just issued by the Dominion Dairy and Cold Storage Branch shows that butter production in Canada has apparently increased during the seven months ending July, 1931, by 35,378,726 pounds, or about 15.5 per cent, as compared with the corresponding period last year.

He came down to breakfast quite early on his first morning at the country hotel.

"Will you take tea, coffee or cocoa?" the waitress asked.

"Whichever you call it."

WHEN FOOD SOURS

ABOUT two hours after eating stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in harness. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for correcting excess acids. 50c a bottle—any drug store.

The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior toothpaste that safeguards against acid-mouth. (Made in Canada.)

Germany Building Glass Houses

Young Woman Architect Predicts They Will Be Common

People who live in glass houses will be no more exceptional than those whose dwellings are brick, stone or wood ten or fifteen years from now, according to Margaret V. Van Pelt, young New York architect. Miss Van Pelt, who recently became a member of a long established New York firm of architects, has returned to work in her New York office after a year studying trends in architecture in Europe.

"The Germans are building glass houses already," she explained. "I saw several of them. Of course, the glass has to be of the strongest sort. They are using glass also to decorate interiors. Sometimes it is transparent and sometimes black."

"Glass, metal and strong colour contrasts in decorating exteriors are the newest notes in building design in Germany. The tendency toward geometric effects is even more marked than in our American skyscrapers. City blocks in which pink, blue, beige and mauve coloured houses stand side by side are being erected."

THE RHYMING OPTIMIST

By Aline Michaelis

SUNFLOWER'S SONG

The sunflower owes allegiance
To nothing save the sun;
But ah! how can she meet the hours
When day is done?

Her fealty is splendid,
Her very heart she bares;
But dusk deepens as she must know
What bleak despair!

I know how she must shudder
Through the black abyss of night;
In all the whirling universe
No golden light!

I know how she must ache for
The signal-lights of dawn;
Her fear-filled vigils I can share
Since you are gone!

Yet eastward I am looking,
Morn's gates are almost won;
I lift my petals up in hope,
Come back, my sun!

How To Avoid Colds

Eating Plenty Of Vegetables and Fruit Is Good Preventative

"It caught a cold" is about the silliest expression heard today. No one tries to catch a cold. The trouble with us is that we do not try very hard to keep a cold from catching on.

That is why we meet so many men today who are complaining about what happened when the weather changed. Only about 17 persons out of each 100 manage to get through a year without suffering from at least a mild cold. Some people suffer several times during the year.

One of the most important things you can do, both to prevent and to correct colds, is to keep your body as alkaline as possible. Vegetables, fruits and milk in the diet will do this.

If, however, you feel a cold coming on take a hot bath and get into a warm bed immediately. Then drink a full glass of hot lemonade. Sweat out those poisons. In the morning squeeze the juice of a lemon into a half glass of water. Stir in a half teaspoon of baking soda and drink it while it bubbles. Repeat this three times a day until your cold has disappeared. Remember, however, that if your cold fails to respond promptly your physician should be interviewed. A little cold is often a dangerous thing.

For Poor Sportsmen

Genecor Has Ingenious Invention To Aid In Catching Fish

Poor sportsmen would welcome an ingenious invention to aid in catching fish. A Genecor fisherman fitted a light and some clockwork to a number of lines. When the fish tugs at the line the light begins to flash and the clockwork starts to wind in the line. When the fisherman gets to the fish all he has to do is remove the fish and rebait the hook to start the process again. The original invention utilized twenty lines.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

Test—"I only got two weeks' vacation this year."

Beas—"How was that?"

Test—"The boss went away the same time I did."

When You CAN'T QUIT

Fatigue is the signal to rest. Obey it if you can. When you can't, keep cool and carry-on in comfort.

Aspirin was meant for just such times, for it insures your comfort. Freedom from those pains that nag at nerves and wear you down. One tablet will block that threatening headache while it is still just a threat. Take two or three tablets when you've caught a cold, and that's usually the end of it.

Carry Aspirin tablets when you travel. Have some at home and keep some at the office. Like an efficient secretary, they will often "save the day" and spare you many uncomfortable, unproductive hours. Aspirin is harmless, so keep it handy, keep it in mind, and use it. No man of affairs can afford to ignore the score and more of uses explained in the proven directions. From a grumbling tooth to those numbing pains which seem almost to bend the bones, Aspirin tablets are ready with quick relief—and always work. Neuralgia, Neuritis. Any nagging, needless pain.

Get the genuine tablets, stamped with the Bayer cross. They are of perfect purity, absolute uniformity, and have the same action every time. Why experiment with fakes costing a few cents less? The saving is too little. There is too much at stake. But there is economy in the purchase of genuine Aspirin tablets in the large bottles.

Made in Canada

Will Take Precautions

Treasure Seekers May Carry Arms To Guard Against Sea Pirates

Precautions against hijackers, such as occasionally laid rich liquor laden ships, will be taken by Lieut.-Col. J. E. Leckie, head of the Vancouver expedition which in a few weeks will sail to Cocos Island to search for the buried treasure of ancient pirates.

Col. Leckie has communicated with the Department of National Defence seeking permission to arm his ship against eventualities on the sea or on Cocos Island. Col. Leckie wants the use of machine guns and "pom-poms" which are in the arsenal at Esquimaux. Even if this permission is not granted, the ship will be armed against possible sea raiders. Col. Leckie has already arranged to carry privately owned machine guns and numerous rifles.

Freedom From Asthma. Asthma is one of the most distressing troubles, sudden in its attacks and prolonged in its attacks. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. D. Kellogg's Asthma Remedy is the one help which can be depended upon. If you have tried other remedies without success, do not fail to get at once a package of this uniformly successful preparation.

Dogs sometimes suffer from diabetes.

Little Helps For This Week

"In your patience possess ye your souls."—Luke xxi. 19.

Hold in thy murmurs. Heaven arraigning:

The patient see God's loving face; Who bear thy burdens uncomplaining.

"Is they that win the Father's grace."

The soul loses command of itself when it is impatient. Whereas, when it submits without a murmur, it possesses itself in peace, and possesses God. To be impatient is to desire what we have not, or not to desire what we have.

An impatient soul is a prey to passions unrestrained by reason of faith. What weakness, what delusion! When we acquiesce in an evil, it is no longer such. Why make a real calamity of it by resistance? Peace does not dwell in outward things, but within the soul. We may preserve it in the midst of bitterest pain if our will remains firm and submissive. Peace in this life springs from acquiescence even in disagreeable things, not in an exemption from bearing them.

H. E. SPENCER, M. P. REVIEWS SESSION

MEETING AT ROSS SCHOOL

Wednesday night a public meeting was held at Ross School house north of Irma by Mr. Henry E. Spencer, the member for Battle River. This is the first of a series of meetings Mr. Spencer is addressing on Federal Affairs during the next six weeks, covering points throughout the constituency.

The aim of the meetings is to give the public an opportunity of hearing a report of the past session at Ottawa, and to give the member a chance to keep in closer touch with the needs of the constituency.

In his opening remarks Mr. Spencer referred to what might be termed the high lights of the session and mentioned:

1. The Beauharnois Power investigation.
2. The Budget Deficit of \$75,000,000, and the sub-amendment moved by himself on behalf of his group.
3. The extra expenses undertaken by the Government, such as, (a) 25 per cent extra towards Old Age Pensions; (b) Financial help to the Coal industry; (c) The five cent a bushel bonus on prairie wheat; (d) Technical Education grant, which called for \$750,000 for 15 years. The last named was withheld by the Government after prorogation.
4. Increased taxation of \$94,000,000 to take care of the above expenditure and the budget deficit.
5. The recommendations with reference to the Income Tax which were afterwards withdrawn.
6. The interest on our National debt of \$124,000,000.
7. The new Australian Treaty.
8. The government's effort to locate Russia.
9. The aim of the Government to increase the tariff all round, which had already been done on over 400 items.
10. The Stamp Commission and the extraordinary action of Sanford Evans was referred to briefly.
11. The new tariff board.
12. His efforts to keep bank interest down to the maximum of 7 per cent by introducing a bill to penalize any bank or banker who charged more than the legal rate according to the Bank Act.

Some of the above subjects were enlarged on as far as time would allow.

The revenue of the country was given in round figures as follows:

Excise duties & Taxes \$159,000,000
Income Tax \$64,000,000
Post Office \$39,000,000
Sundry \$22,000,000.

The expenditure was also given which showed an increase in the sum spent for, Agriculture, Pensions, Prov. Subsidies, R. C. M. P., National Revenue, and Trade and Commerce; while a decrease was shown in the cost of the following:— Civil Government, Immigration, National Defence, Aviation, Public Works and Indian Affairs.

When question time came, a general talk was given on economics, which embraced the why and the wherefore of unemployment, the gold basis and bi-metalism and the control of industry by organized, privately controlled finance.

These meetings should not be missed by anyone who can attend, as much valuable information can be exchanged between the member and the audience.

Mr. Spencer expects to speak at Silver Lane south of Irma on Monday, November 30th. Remember the date and be sure to attend.

SPECIAL WEEK-END TICKETS

The sale of special week end tickets which has been in effect this summer is extended to February 28th, 1932. Special rate on poultry to Edmonton from now till December 31st: Live, 75c per hundred; Dressed, 45c per hundred.

POPPIES TO BE SOLD IN IRMA

The Irma Branch Canadian Legion B. E. S. L. are conducting a Poppy Campaign. Poppies are being sold in the surrounding schools and will also be sold in Irma a few days before the anniversary of that Memorial day, November 11th. Any one wishing to order a Spray or Wreath can get particulars and prices of same from either W. E. Ink, Sec.-Treas., or Mr. R. Stone at Stones Bakery, Irma, who will be pleased to receive orders for Sprays or Wreaths.

Many people ask the object of this campaign and where the profits go, so I attach a copy of the campaign objects, issued by our Dominion Command at Ottawa:

Objects of the Campaign
1. To pay tribute and bring back to the memory of all citizens the men who sleep beneath the poppies in France, that due remembrance is shown in some tangible form on November 11th each year.

2. To provide employment for disabled ex-service men engaged by the Government in Veterans' shops.

3. To create a small fund in the district where poppies are sold which can be applied as relief for any deserving case.

4. To help provide funds for taking care of genuine adjustment cases of widows and dependents and disabled returned men.

(School children should be taught to memorize these four benefits of the campaign and be able to repeat them in their homes.)

BOARD OF HEALTH HELD MEETING

The local Board of Health of the Village of Irma met at 7 p.m. October 29th, 1931, with full board present. Mr. Hedley presiding. Dr. Greenberg, M.H.O. for the Village and Dr. McGugan, Director Division of Communicable Diseases Dept. of Public Health Province of Alberta, also present.

The minutes of the last meeting of the Board of Health read and on motion of Mr. Schon were accepted as read.

This meeting was called to meet Dr. McGugan whom the Board had asked to come to Irma to pass his opinion on the prevailing case of Smallpox, first having visited the case.

Dr. McGugan in his address stated in his opinion that this was a definite case of Smallpox but the case was of a mild nature; he also drew the attention of the Board regarding Section 16 of the Public Health Act.

"That whenever a house holder ascertains or has reason to suspect that a person within his family or household is infected with any of the notifiable diseases he shall within twelve hours give notice in writing to the local Board of Health."

Also to that Section of the Act re Quarantine restrictions.

The Secretary was instructed to order another 100 points of Smallpox Vaccine from the Prov. Board of Health.

No more business on hand Board adjourned on motion of Mr. Foxwell. Chas. Wilbraham, Sec. L. B. of H. Irma, Alberta

We are finding it more and more difficult to obtain interesting local items and would be glad if our readers would please write out any items of News they may know and hand it in to us, and if we are not around please leave it at the post office. We want news items and will appreciate your help.

A Worn Out Tractor

Is a poor machine to try and get your crop threshed with. The Massey-Harris Co., have on hand some real Tractor Bargains. Think of it. Tractors that have only done one season's work and have been thoroughly overhauled in their own shop by their own workmen and repaired. Fully guaranteed and selling at from \$600.00 to \$800.00.

The real value of these Tractors is at least \$1,000. But they are being offered at this Exceptionally Low Price to clear the stock.

Better see your agent at once before they are all sold. V. HUTCHINSON, Blacksmith, Massey Harris Agent, Phone 12, Irma
